Kim,
the past four years have really been
something else. I'm really going to
miss you. When we received this
annual we'd have known what we
do today. Nobody writing in this
we may've had realized you'd
be gone in August. This sheet won't
be the same without you. We've
had many happy times. I can't
remember every thing we've done. It
won't be the same getting up on
winter mornings without you to
walk to school with. The time has
passed quickly & we didn't take ad-
vantage of it. Always live every mi-
nute you may never get another chance.
I promise I'll come down next semester
you'll have to come up to spend a week
with me. Next July over momma's

times we've had together. Just because
your moving doesn't mean our friend-

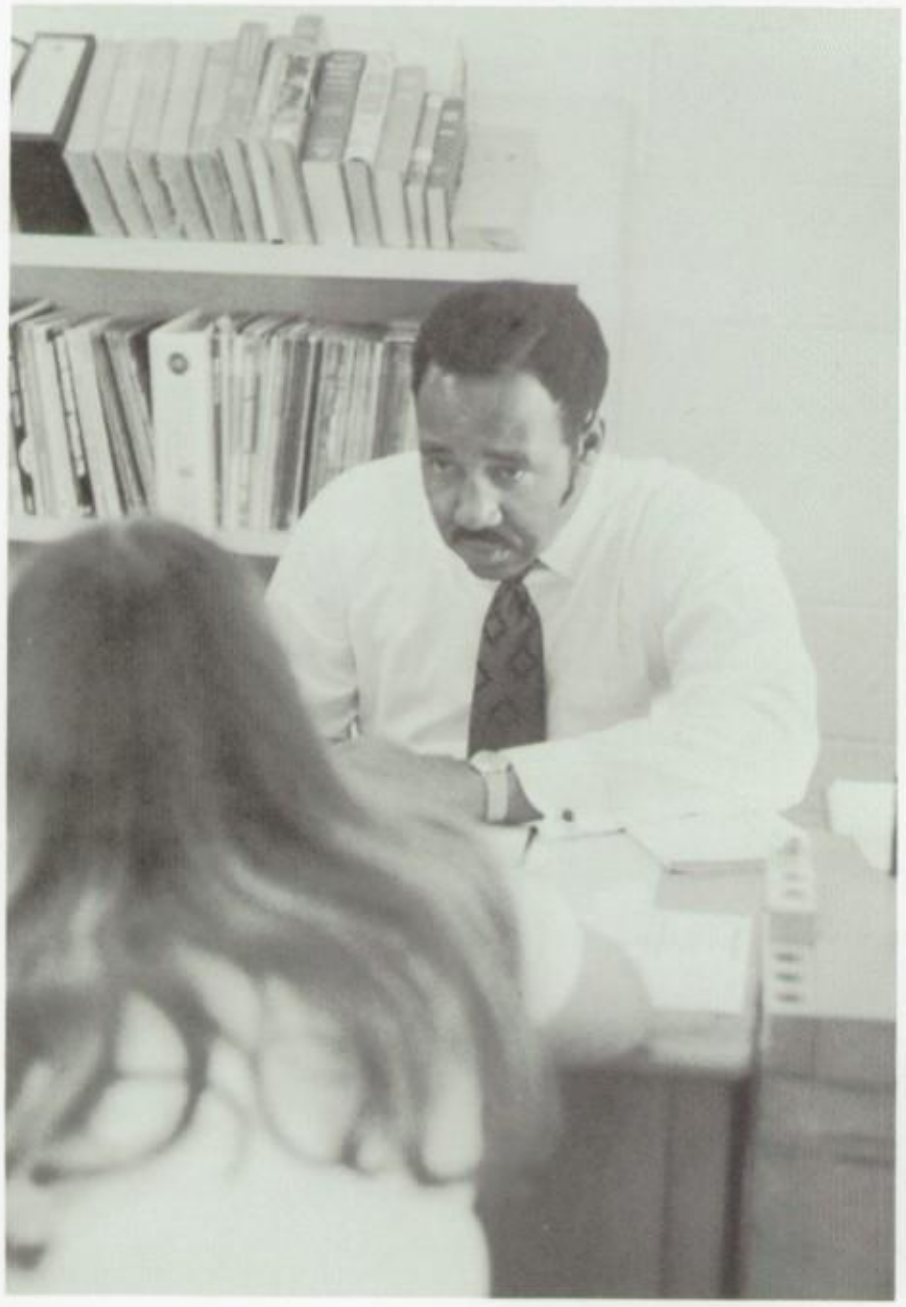
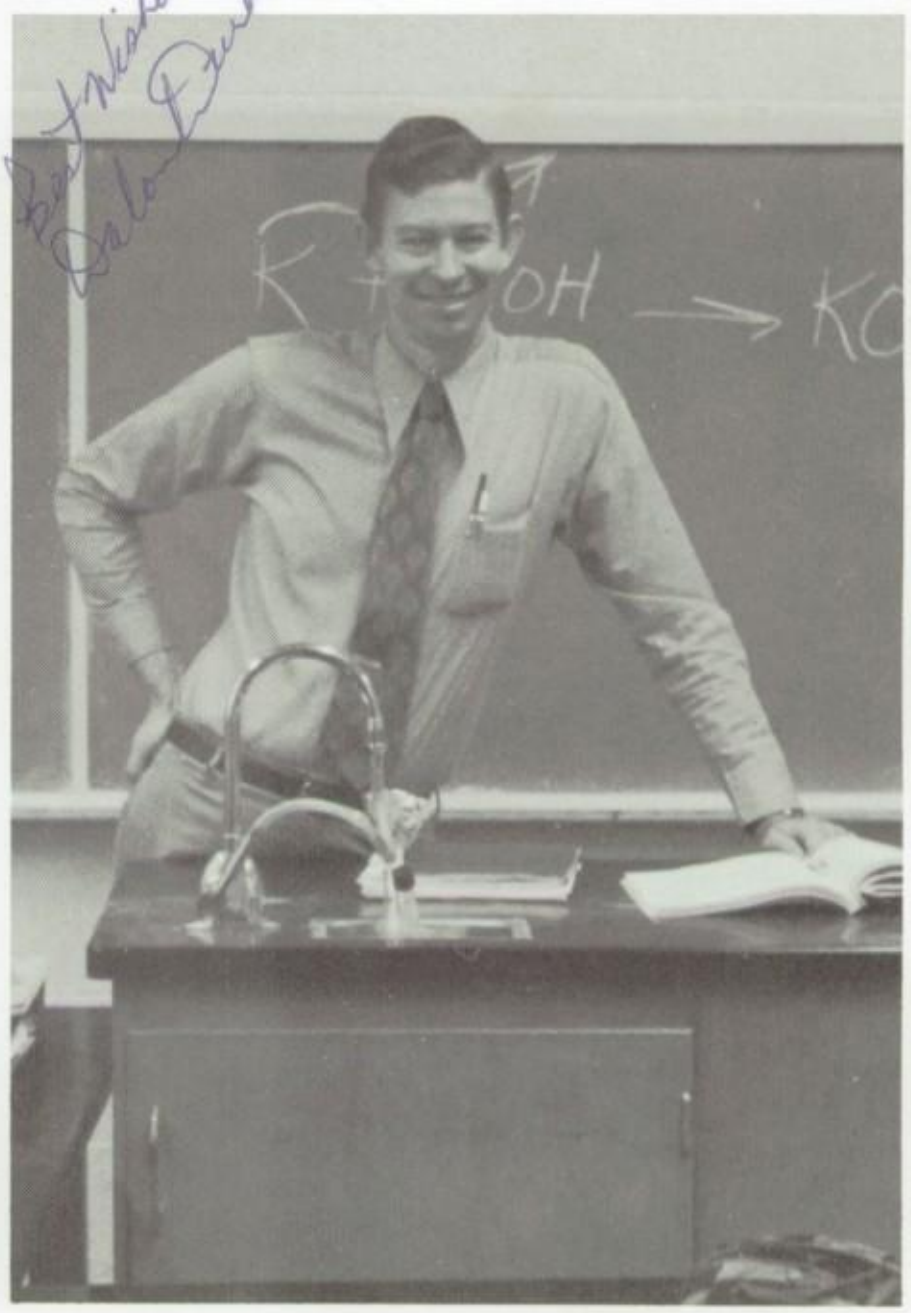
ACADEMICS: (ak' e dem' iks) n. Higher education in an institution or school; subjects of necessity in learning or obtaining knowledge. Academics are made up of languages, social studies, mathematics, and sciences, with specialized studies in practical arts and business education. Academics are faculty and students working together during the school day at WCHS.

A New Administration Begins This Year at WCHS

The beginning of an era of change is happening at WCHS. Dr. John Pryor, principal, is accomplishing changes by enforcing new ideas and pleasing the students and faculty, as well as himself. The Administration has a whole new outlook and prospective about the school with Dr. Pryor leading it and with the help of Mr. Harris and Mr. Durham, assistant principals. With many long hours guiding and leading the students, the Administration keeps WCHS rolling.

1.) Dr. John Deason, Superintendent.
2.) Other members of the School Board are: (SITTING) LEFT TO RIGHT: Mrs. Betty Mitchell, Mrs. Lois Hayes, Miss Theda Moore, and Dr. H. C. Landon; (STANDING) LEFT TO RIGHT: Mr. Roy Harris, Mr. Bill Clark, Mr. Clate Duncan, Mr. Keith Bentley, Mr. George Forester, Jr., Mr. Bert Joines, and Dr. John Deason.

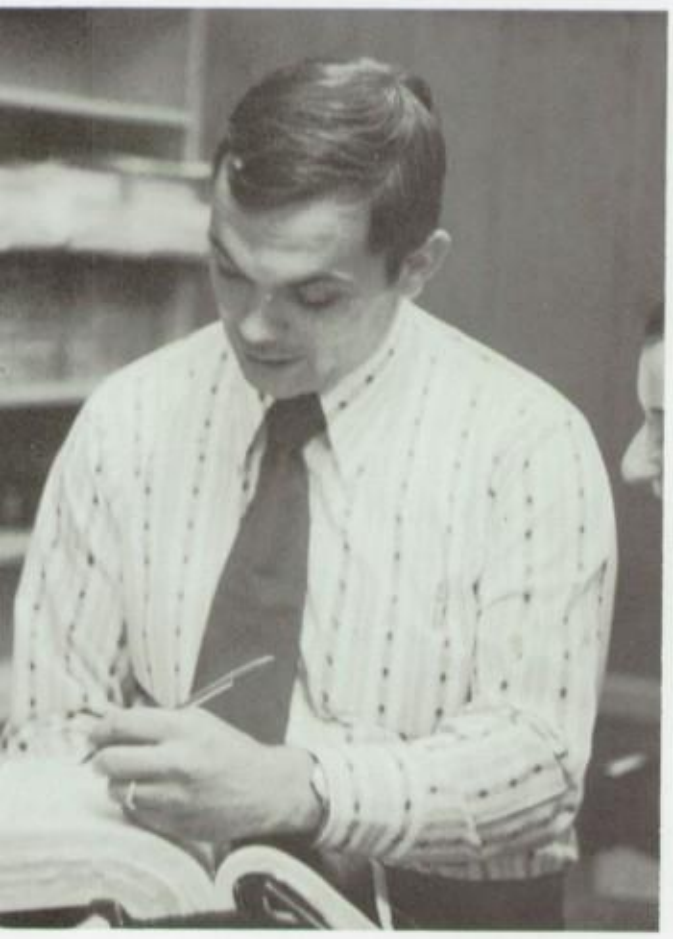


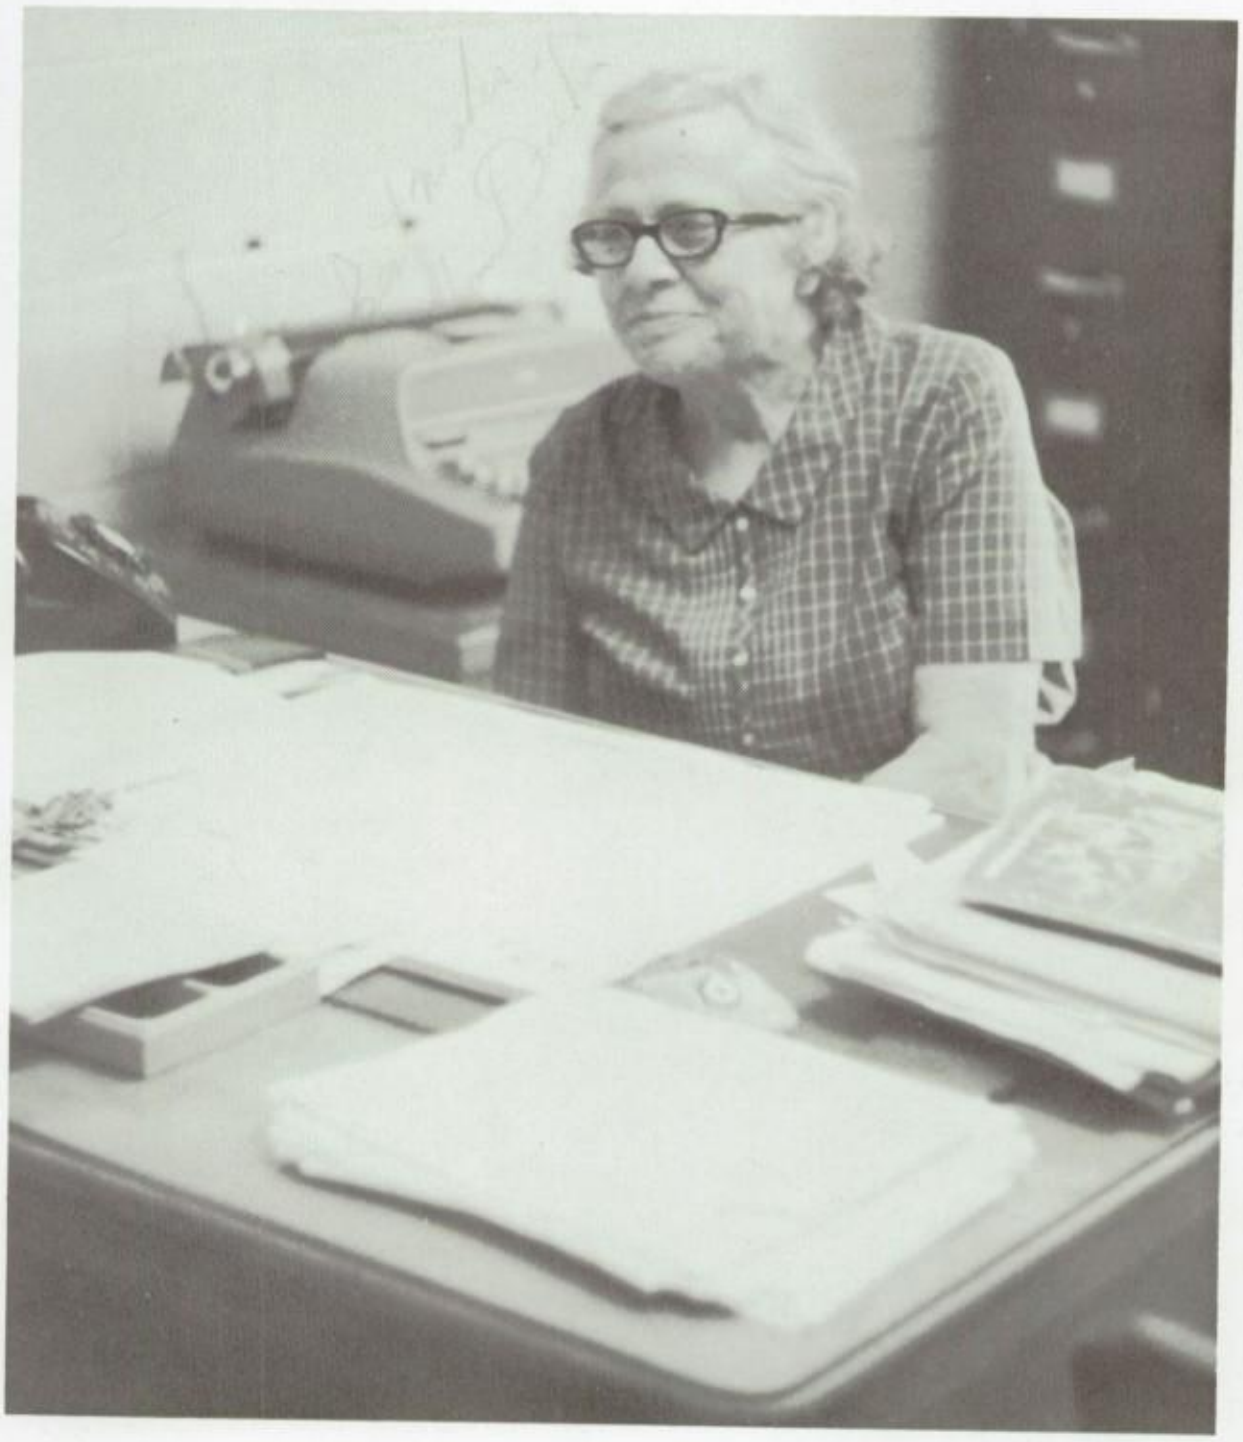


1.) Dr. John P. Pryor has enforced many new ideas during his first year as principal of WCHS.
2.) Disciplining students is one of the jobs of the assistant principal; Mr. Richard Harris.
3.) Mr. Dalon Durham divides his time as a science teacher and as an assistant principal.

Our Counselors and Secretaries Help Operate WCHS

A successful effort to maintain sufficient and well done work is put forth by the secretaries and the guidance counselors. These workers are an asset to help keep the school under control and operating swiftly. Advising students with personal and educational problems along with Miss Pearson and Mrs. Agnello is Coach Don Patrick back once again. Without these counselors and Mrs. Davis and Mrs. Shumate, secretaries, WCHS would not be able to succeed to its entire fullest.

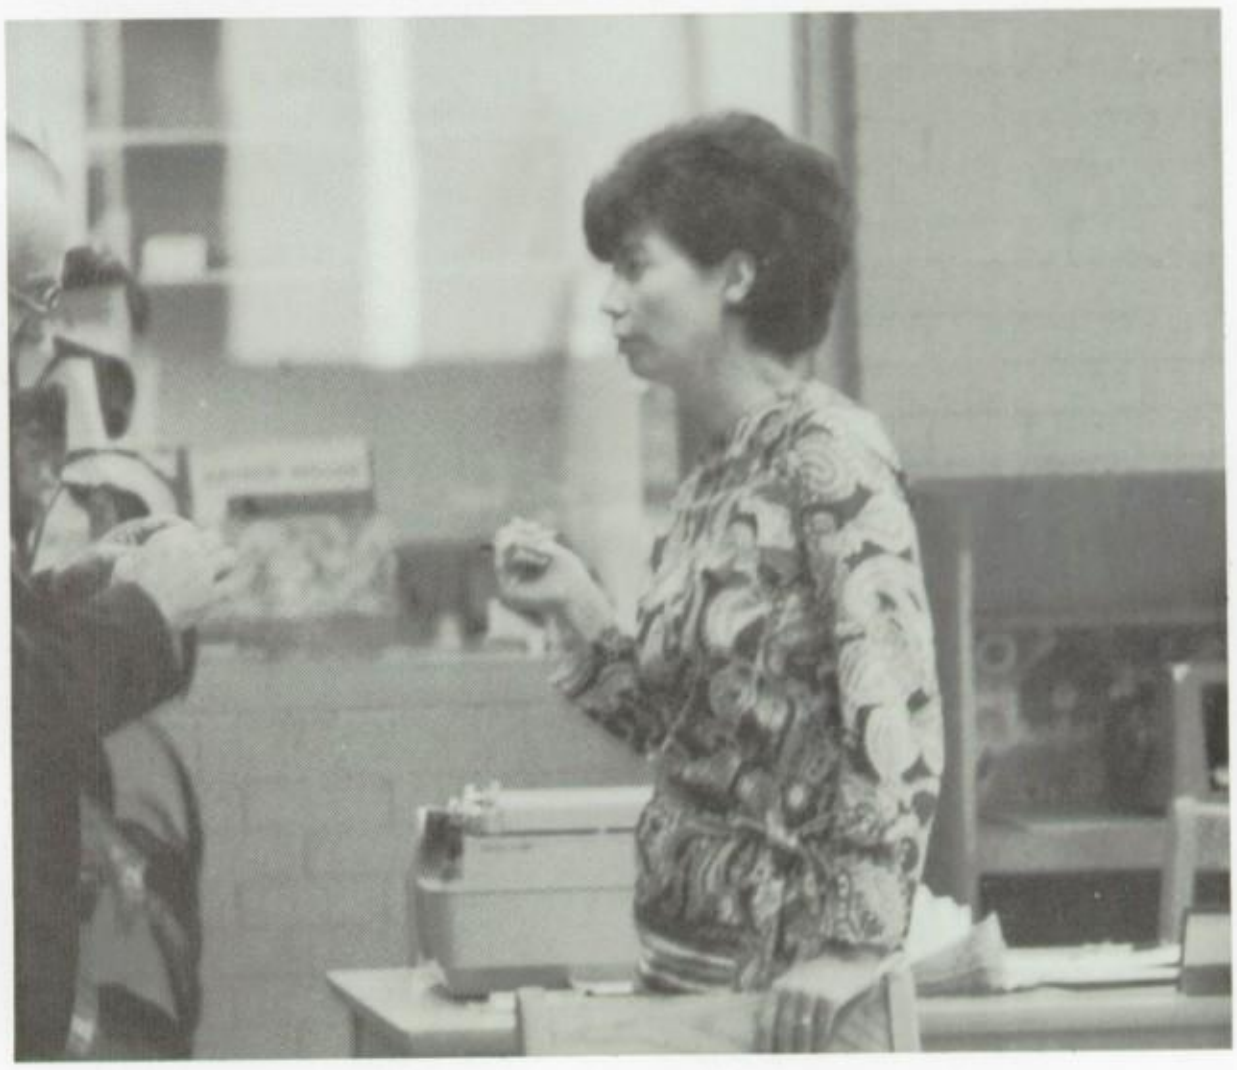




1.) Mrs. Shumate is kept busy sending letters and typing our daily bulletin announcements.
2.) Mrs. Davis finds keeping the financial records an endless task.
3.) . . . but without both of them our school could not function smoothly.
OPPOSITE PAGE: Mrs. Dorothy Agnello understands the feelings of the students.
2.) Mr. Don Patrick helps confused freshman.
3.) Miss Beatrice Pearson spends much of her time solving teacher and student problems.

School Personnel Provides a Relaxed Atmosphere

The librarians are carrying the responsibilities of keeping the library quiet so that students may study and relax. Along with these workers, the janitors and the cafeteria workers are working hard to keep the school "well-groomed" and to prepare a well-balanced meal for the students and the faculty. All of these occupations at WCHS are not as easy as they appear to be. Without these diligent laborers, WCHS would not be able to uphold its well respected standards.



1.) Carolyn Bishop performs one of the many duties given a librarian assistant.
2.) Mrs. Gozelle Ham, librarian, can see and hear a mischievous student within a mile of the library.
3.) Mrs. Elizabeth Parlier inquires about new materials that might be of use to the student body.
OPPOSITE PAGE: 1.) Rex Parks, custodian, takes a break, to comb his hair??
2.) The cafeteria workers are: LEFT TO RIGHT: Pearl Parlier, Beatrice Porter, Edna Parlier, Ida Love, and Theida Tedder.

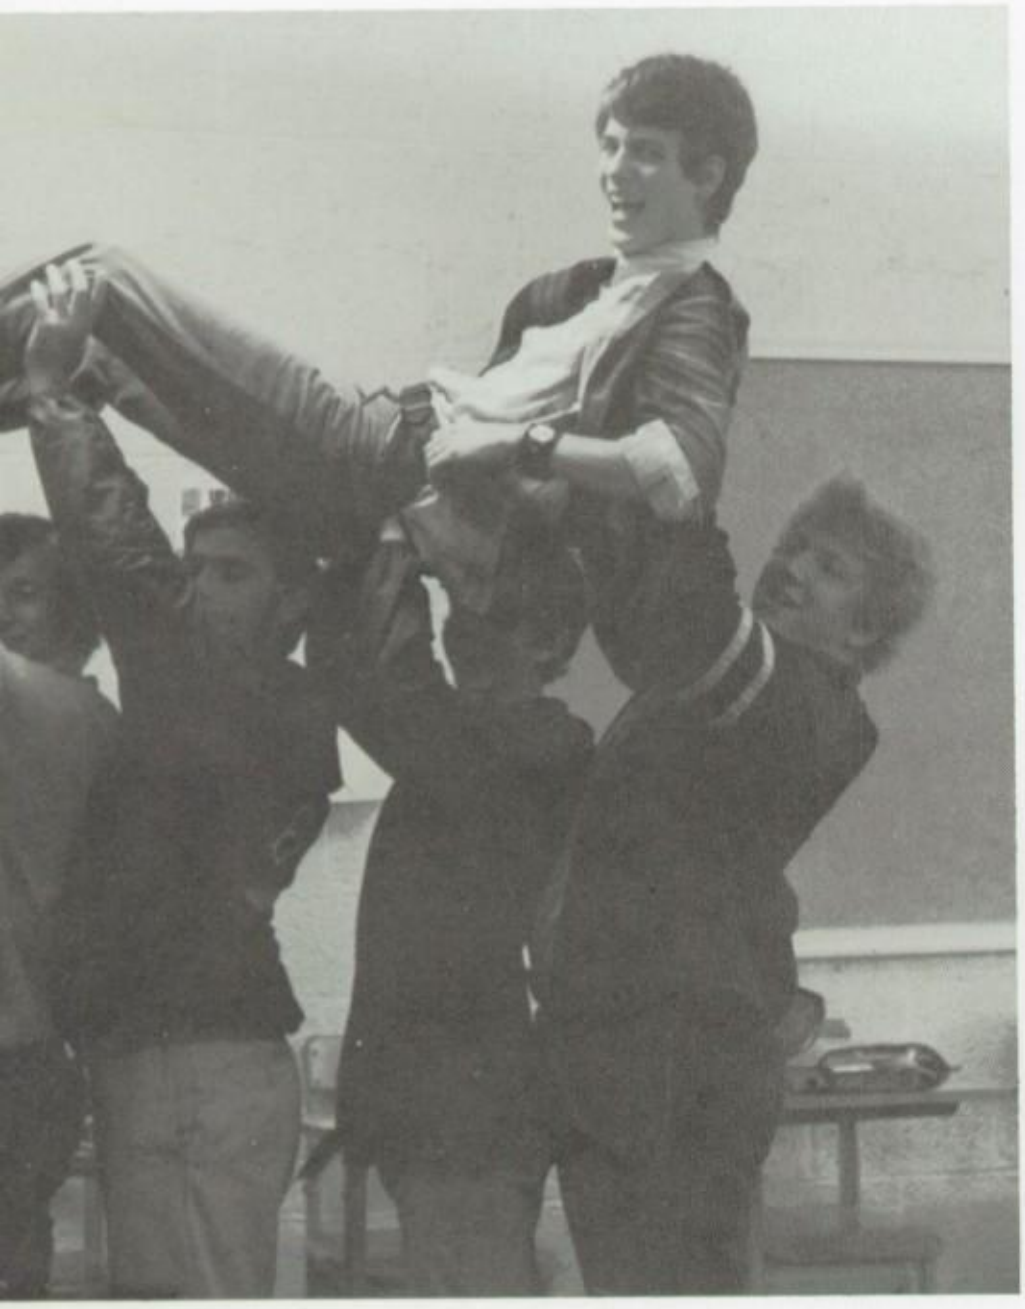
4.) Miss Alexander finds happiness as she strives to be a good teacher.
OPPOSITE PAGE: 1.) Mrs. Justin gives an encouraging smile to her class.
2.) Annette Ingram and Keith Jones practice "Keith's Hamlet," before their opening night.

The English Department is Expanding to Meet the Student's Needs

The English curriculum is constantly expanding. After a great loss of several teachers the department is very fortunate to have gained four new teachers. They are: Miss Glenda Condon, Miss Leita Alexander, Mrs. Mary Deason, and Mr. William Neal. The program in which subjects are chosen by the students, Juniors and Seniors, on the basis of their own needs, wants, and likes, is still in effect. This is being carried out because it gives a more meaningful course of study for the students. This year three new courses are being taught with many more planned for the future. The department is encouraging students to expand their knowledge in many fields of English by offering programs given by guest speakers. In addition, the presentation on Carl Sandburg is arousing the interest of many students. With these happenings, the English Department will benefit greatly.

Encouragement of Students to Expand Knowledge is Successful



1.) Mr. Neal flies up and away with the help of Randy Cranor, Brent Rockett, Wayne Pardue, and Tony Baker.
2.) Trying to find a number of the same books for class, Mrs. Harris concludes, it's not easy to do.
3.) Mrs. Upright enjoys writing out pop test, but grading them is another thing.
OPPOSITE PAGE: 1.) A reluctant smile from Mrs. Erwin interprets an enjoyable class.
2.) Peace in Mr. Green's class.
3.) Beauty surrounds the English Department when Mrs. Nesbitt is nearby.

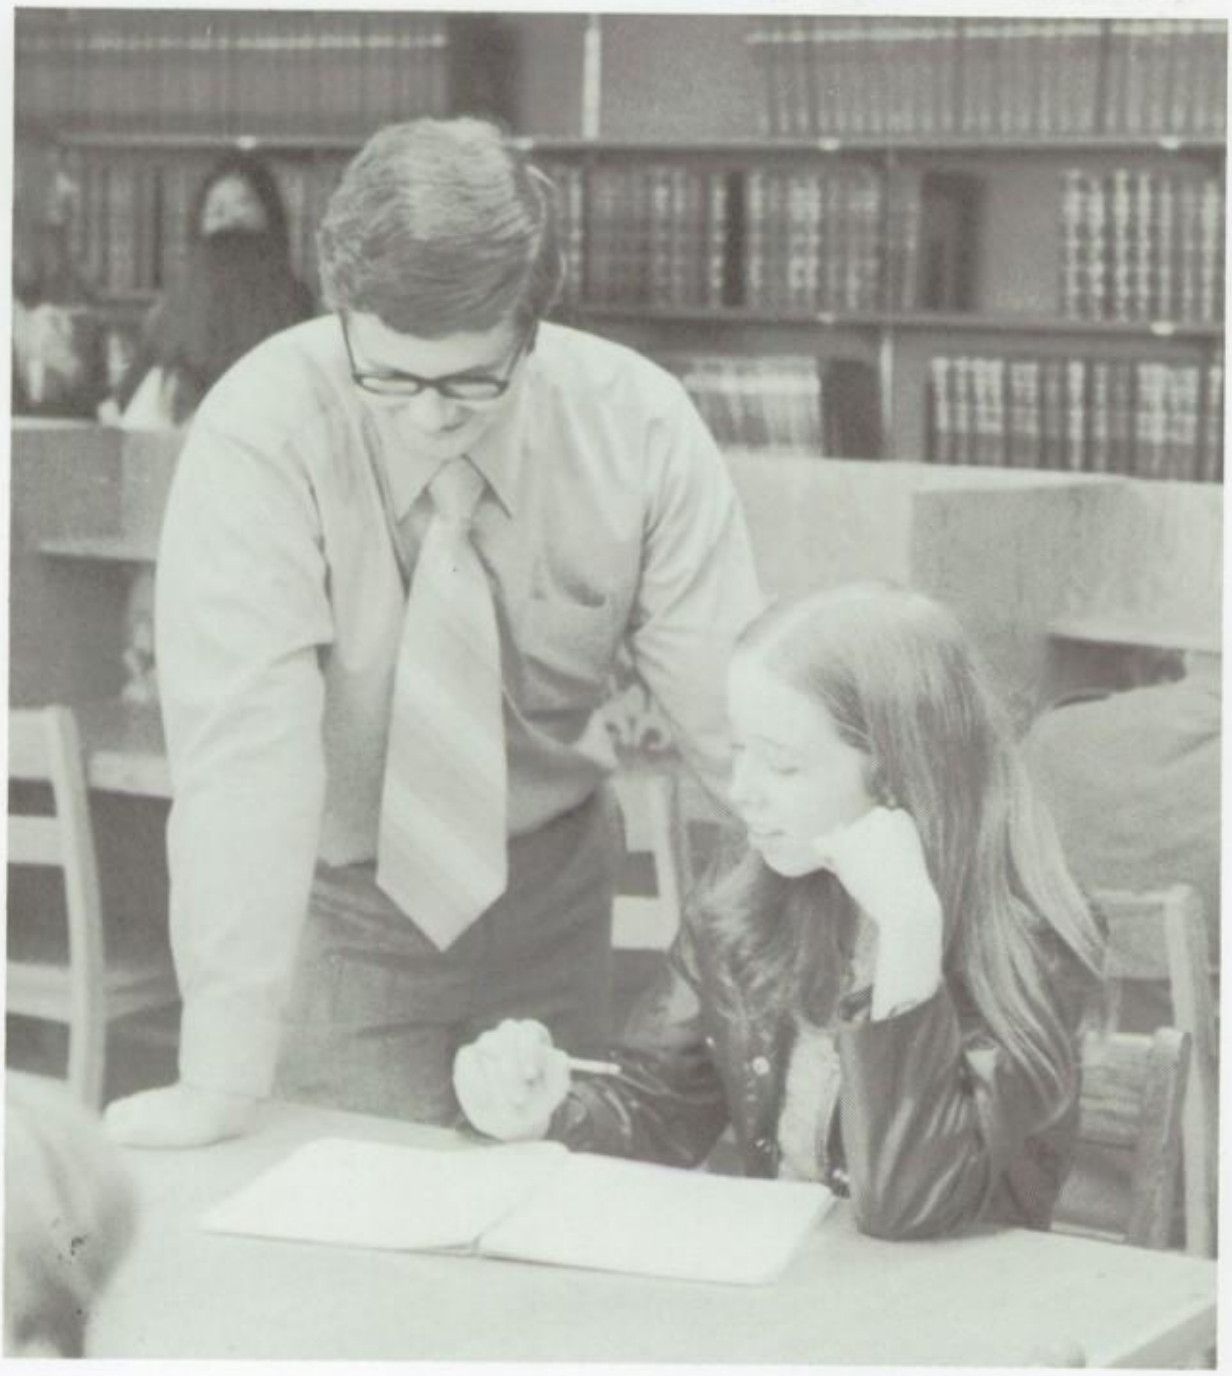
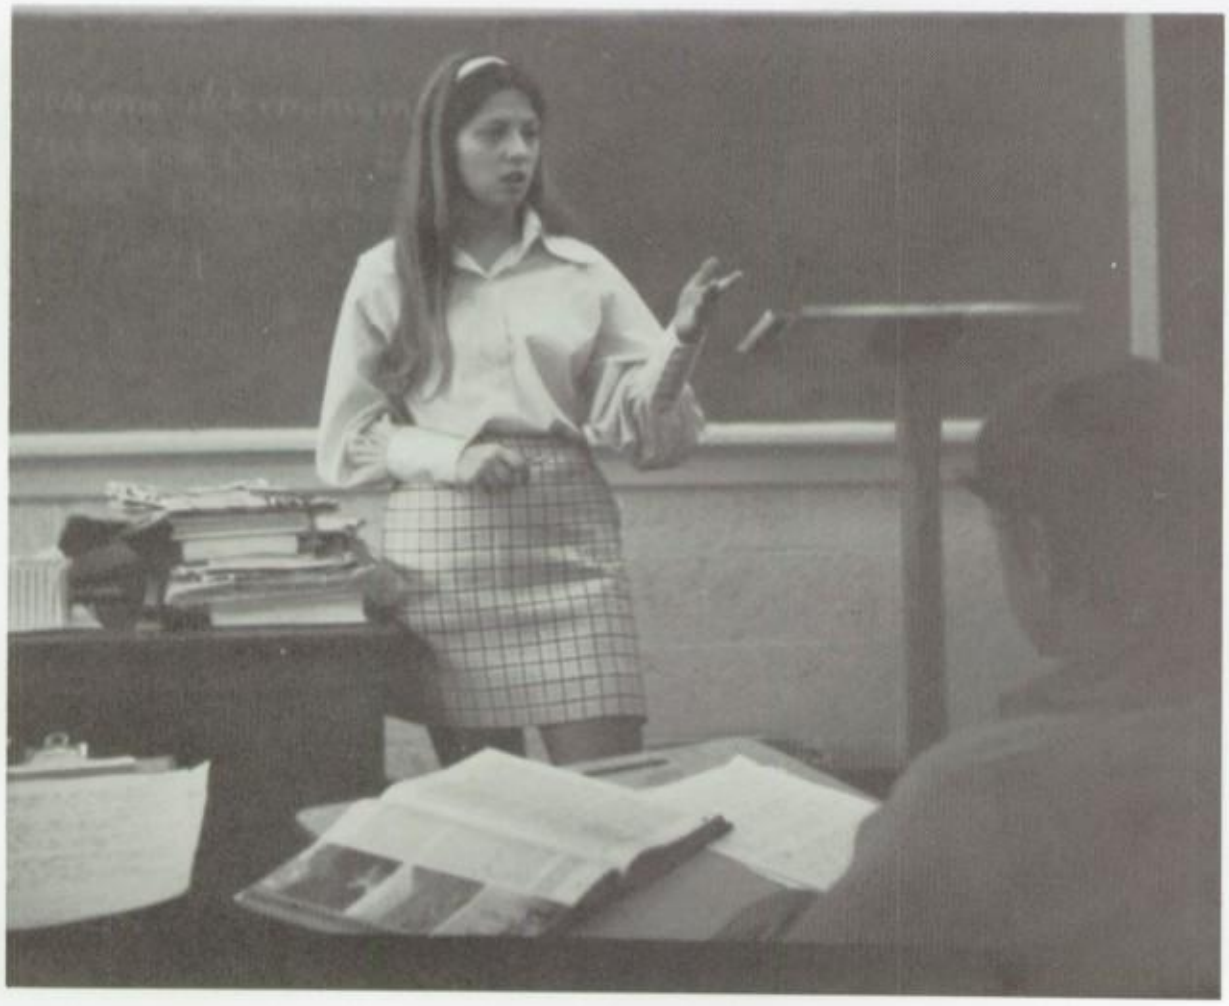
Kim, Please listen!
Best wishes
Jean W. Kirby

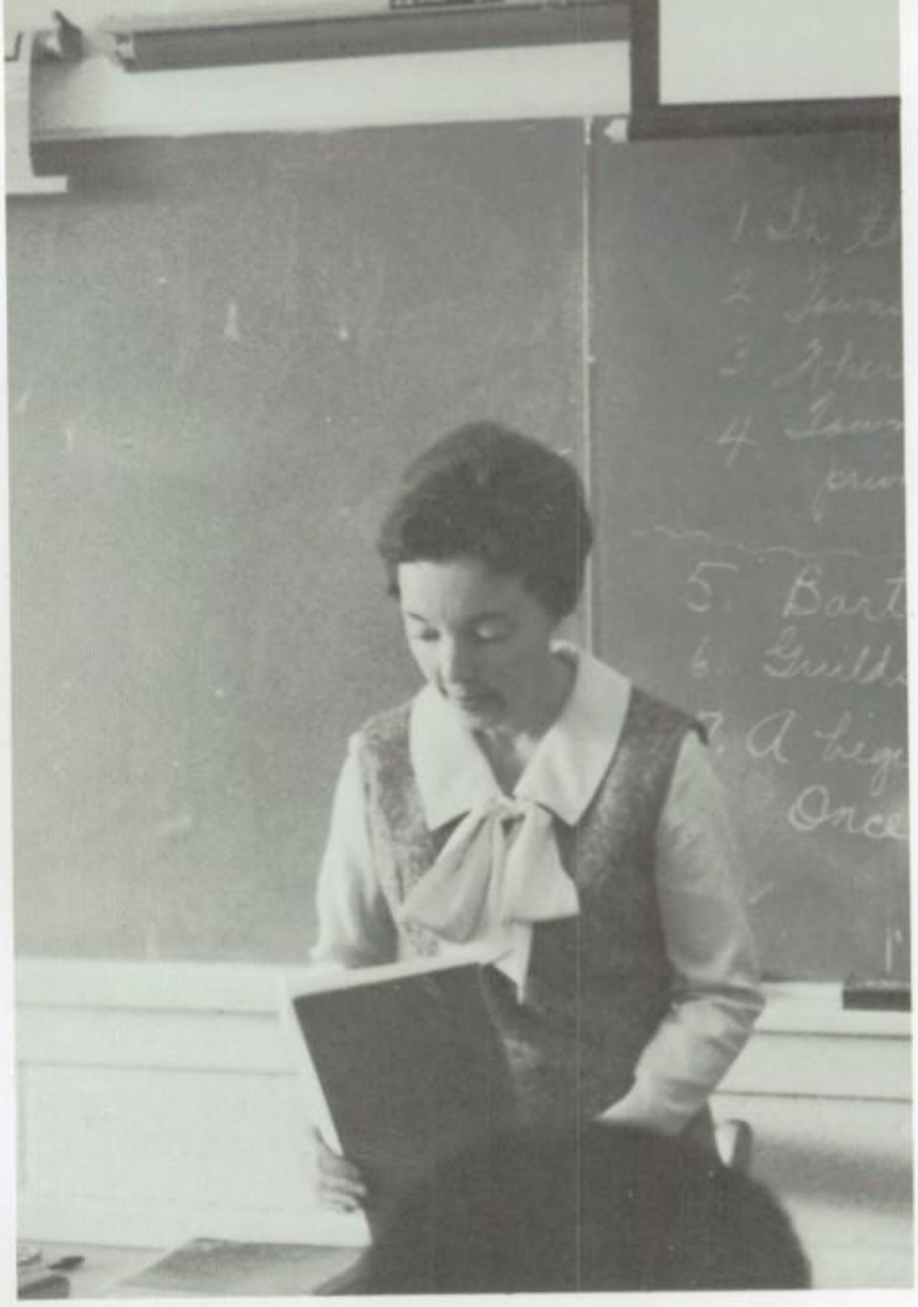
The Inquiry Approach Is Effective in Curriculum

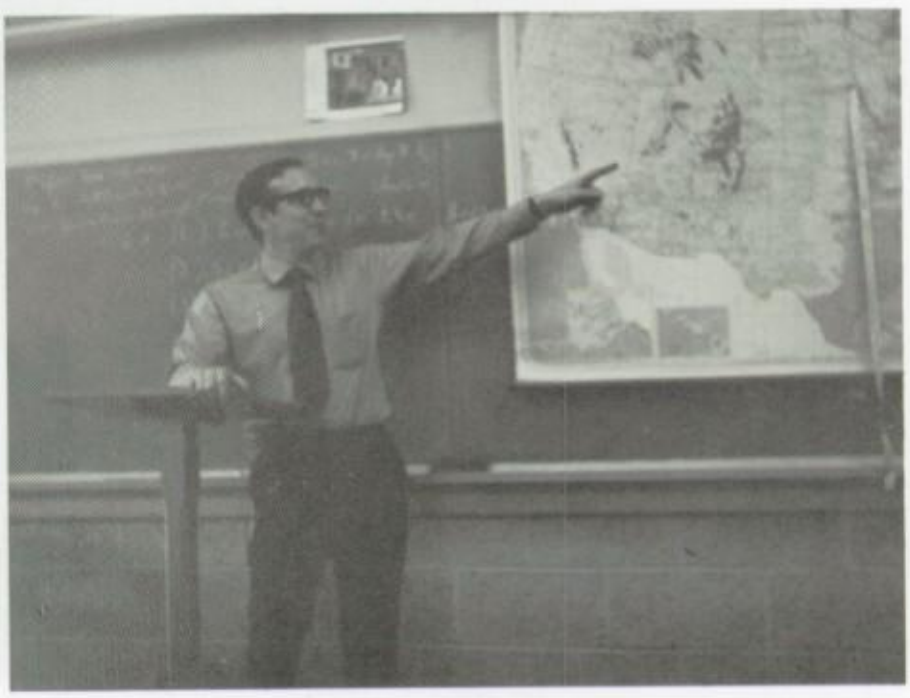


A total overhaul of the Social Studies Department is now in effect. The department hopes to have revised the entire curriculum by the Fall of 1972. Helping make the revisions are: Miss Burgess and Mrs. Foster, two new teachers. This school year a new TV course and the Inquiry approach to learning is in use. In addition, many guest speakers, games, dramatizations, and role playing are being used to interest the students.



1.) "Help me if you can," Denise Livermore comments to Mr. Reid.
2.) "Give me liberty or give me death," Miss Burgess quotes from Patrick Henry.
3.) Mrs. Foster explains the idea of American democracy to her students.

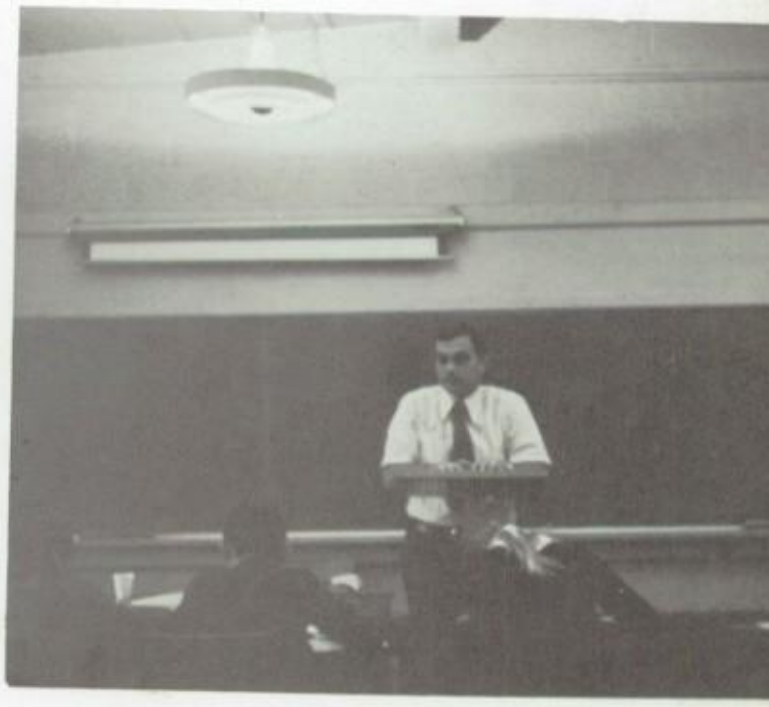


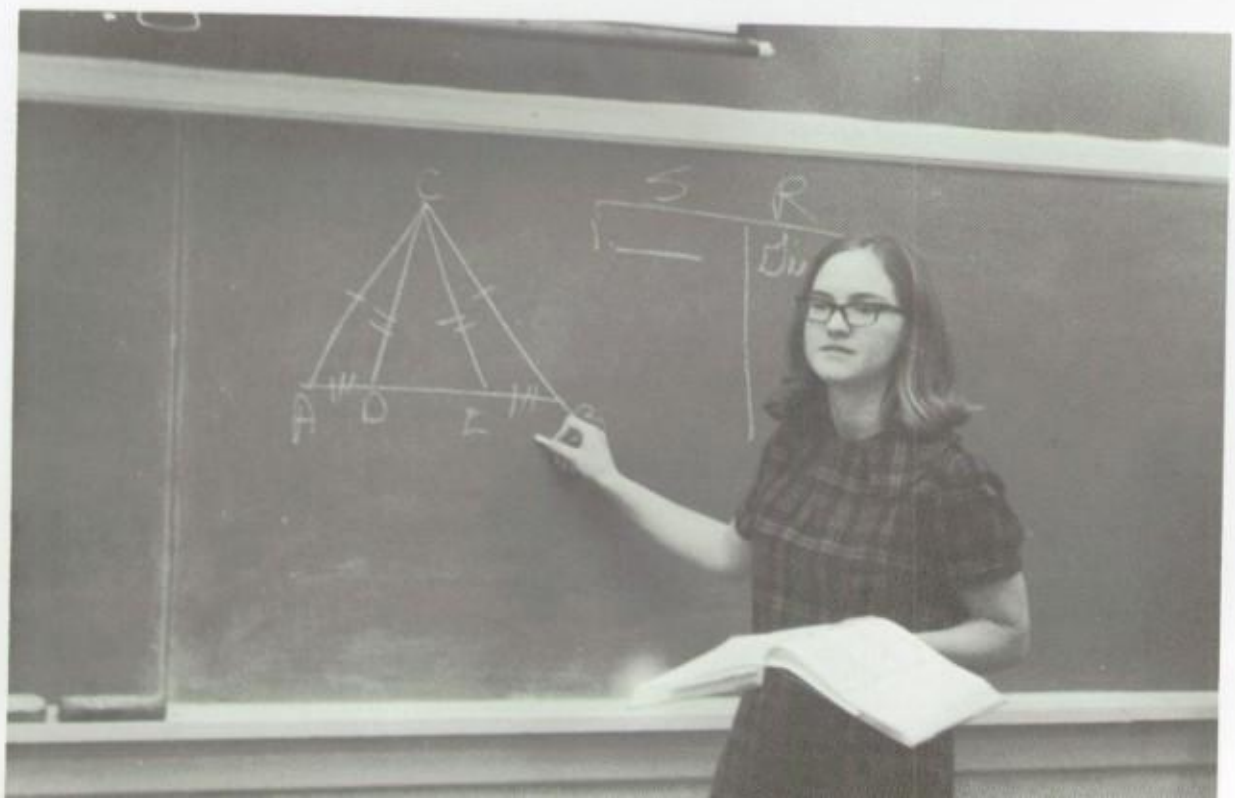


1.) "At this point I quit caring," Mrs. Secrest said.
2.) Mrs. Medcalf takes a minute over her desk to think about her daily plans.
3.) Mr. Cook tries to explain about his trip to the rough and wild Pikes Peak.

Students Take More Algebra and Less General Math

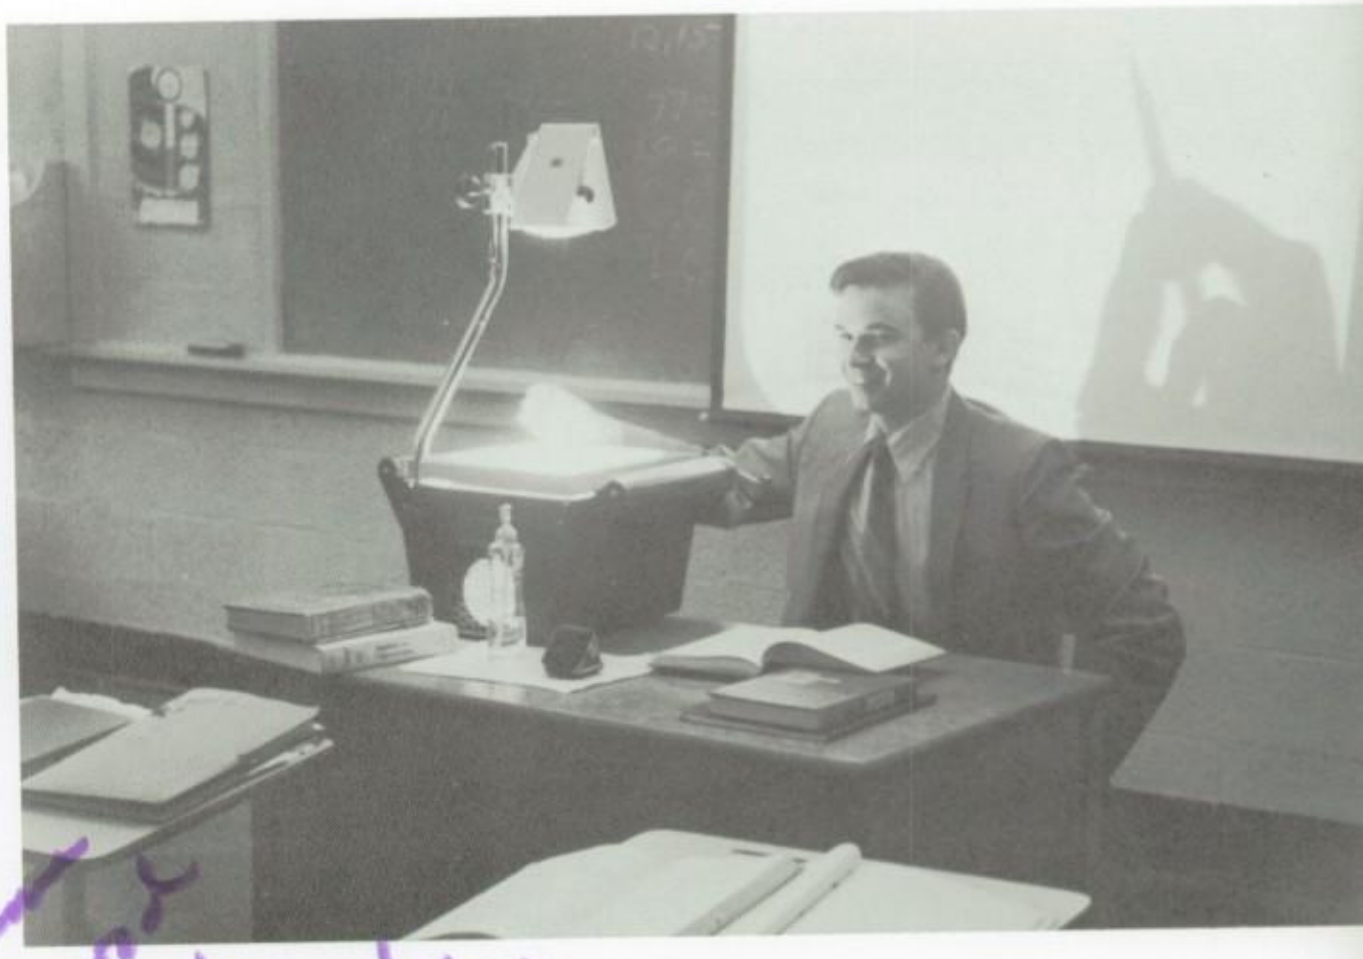
Many teachers believe that a basic understanding of mathematics enables the students to apply a reason and logic in their thinking. This year the Math Department is endeavoring to get students to take more Algebra and less General Math and is offering more math courses as electives. Helping accomplish this change are six new teachers: Mrs. Barbara Clanton, Mrs. Pat Crissman, Mrs. Ruby Orsbon, Mrs. Linda Preston, Mr. Kent Burchette, and Mr. Don Patrick.

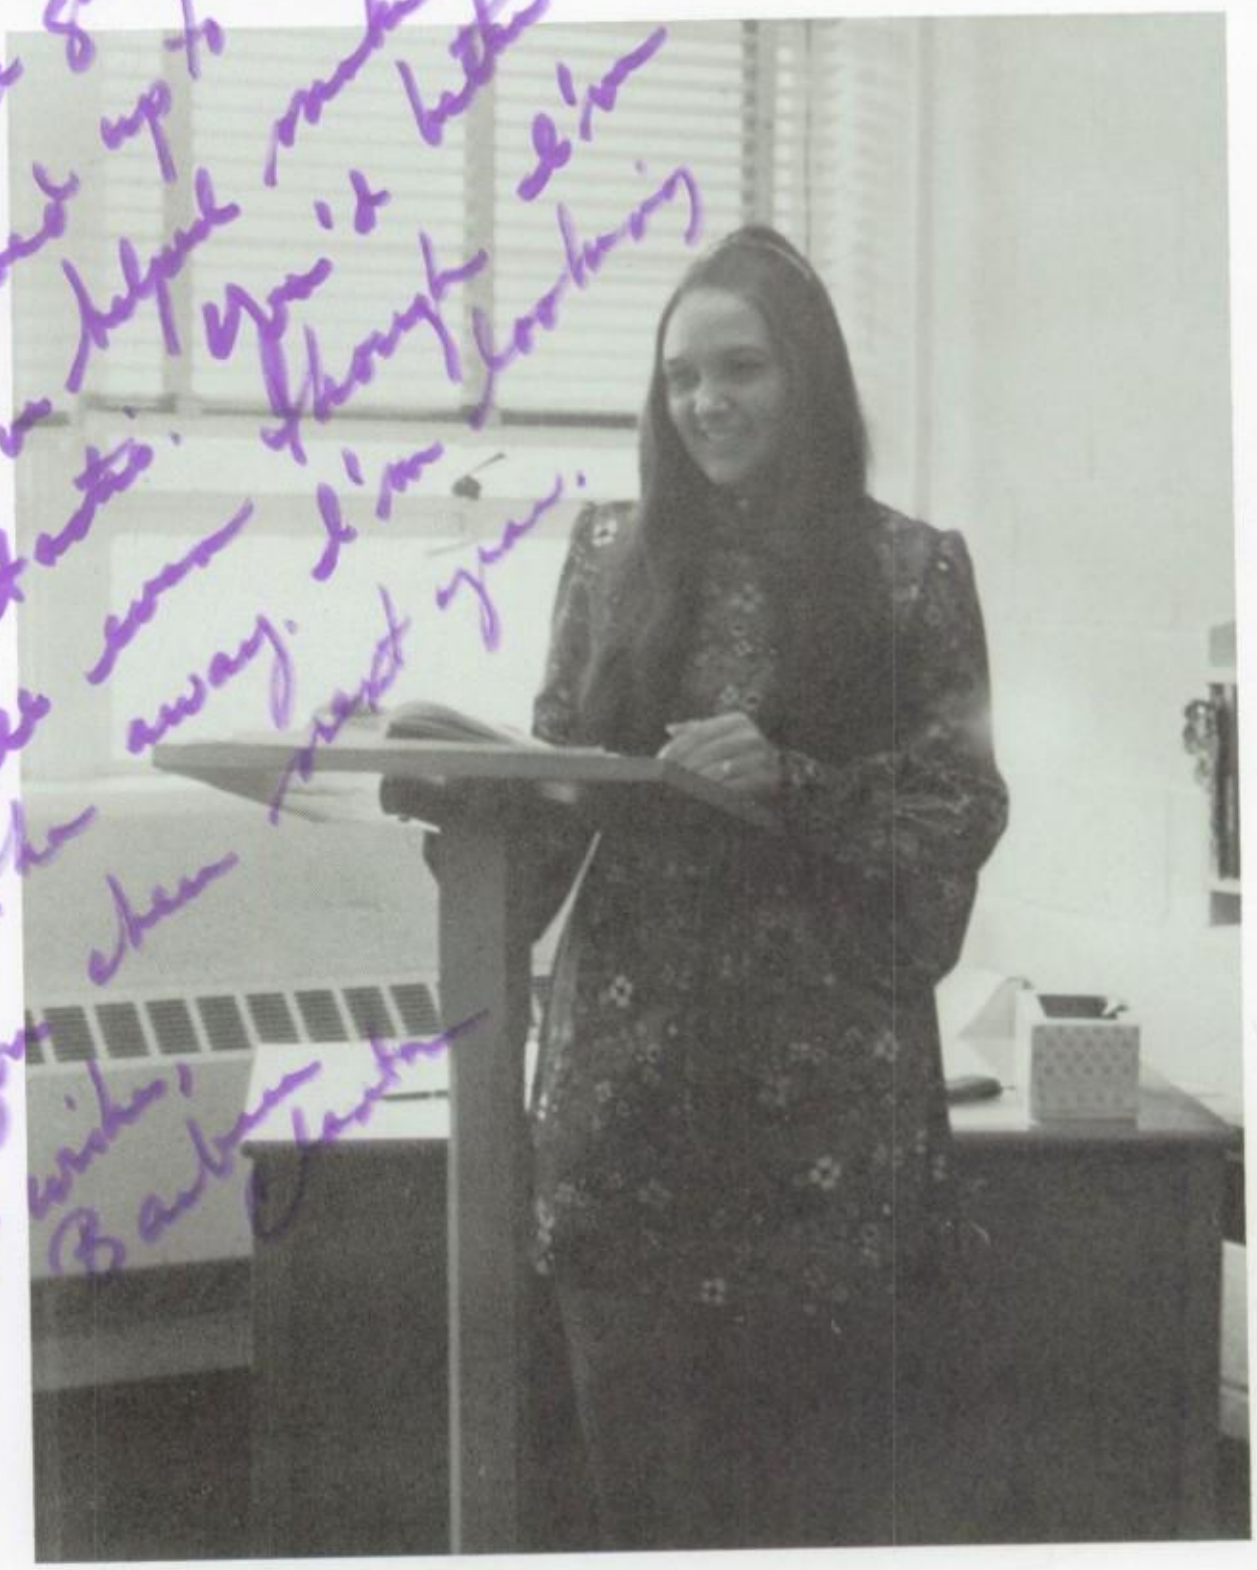




1.) Mrs. Crissman listens closely to one of her Advanced Math students trying to explain one of her mathematic problems.
2.) Coach Patrick says General Math may be easier than Geometry but there is a beginning to everything.
3.) Mrs. Preston uses the philosophy "a picture is better than a thousand words."

Mathematics Enables the Students to Apply Reason in their Thinking





Kim,
You were the first student last semester to come to see me after class. You were very impressive. You came up to me and said that all your long years in school you'd never had a teacher who'd ever asked you what you thought. You said you'd always been afraid to answer questions in class for fear you'd be wrong. But you knew the answer. I'm so proud of you. Keep thinking and asking questions.
Barbara Cantor

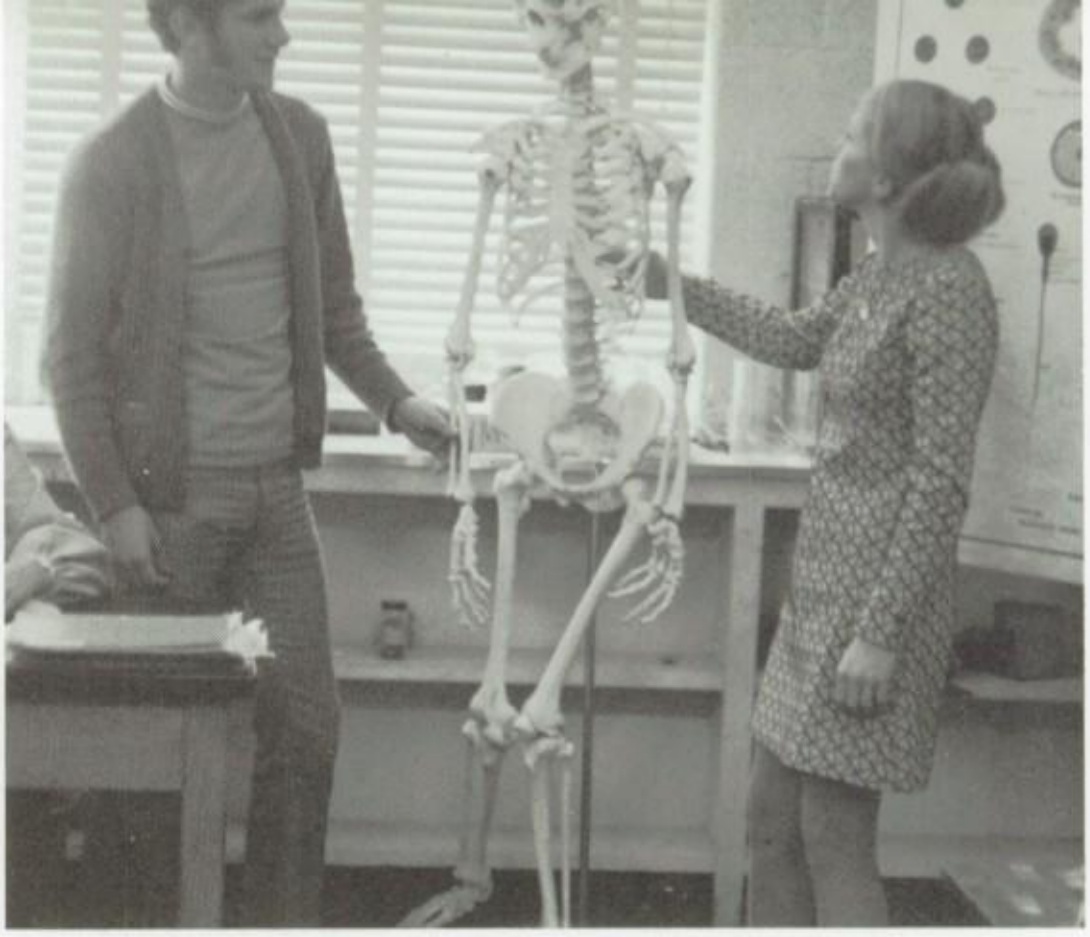
2.) Somebody just told Mrs. Clanton why all those Senior men wanted to take Consumer Math!
1.) Mrs. Orsbon gives an encouraging smile to her students.
2.) Besides being in the Marksman Quartet, Mr. Burchette is also a marksman when it comes to math.



1.) In Science class, Ted Ferguson can honestly say that Miss Goad gets under one's skin!
2.) The great team of Bentley and Smith defy the laws of chemistry set forth by Mr. Ronald Travis.

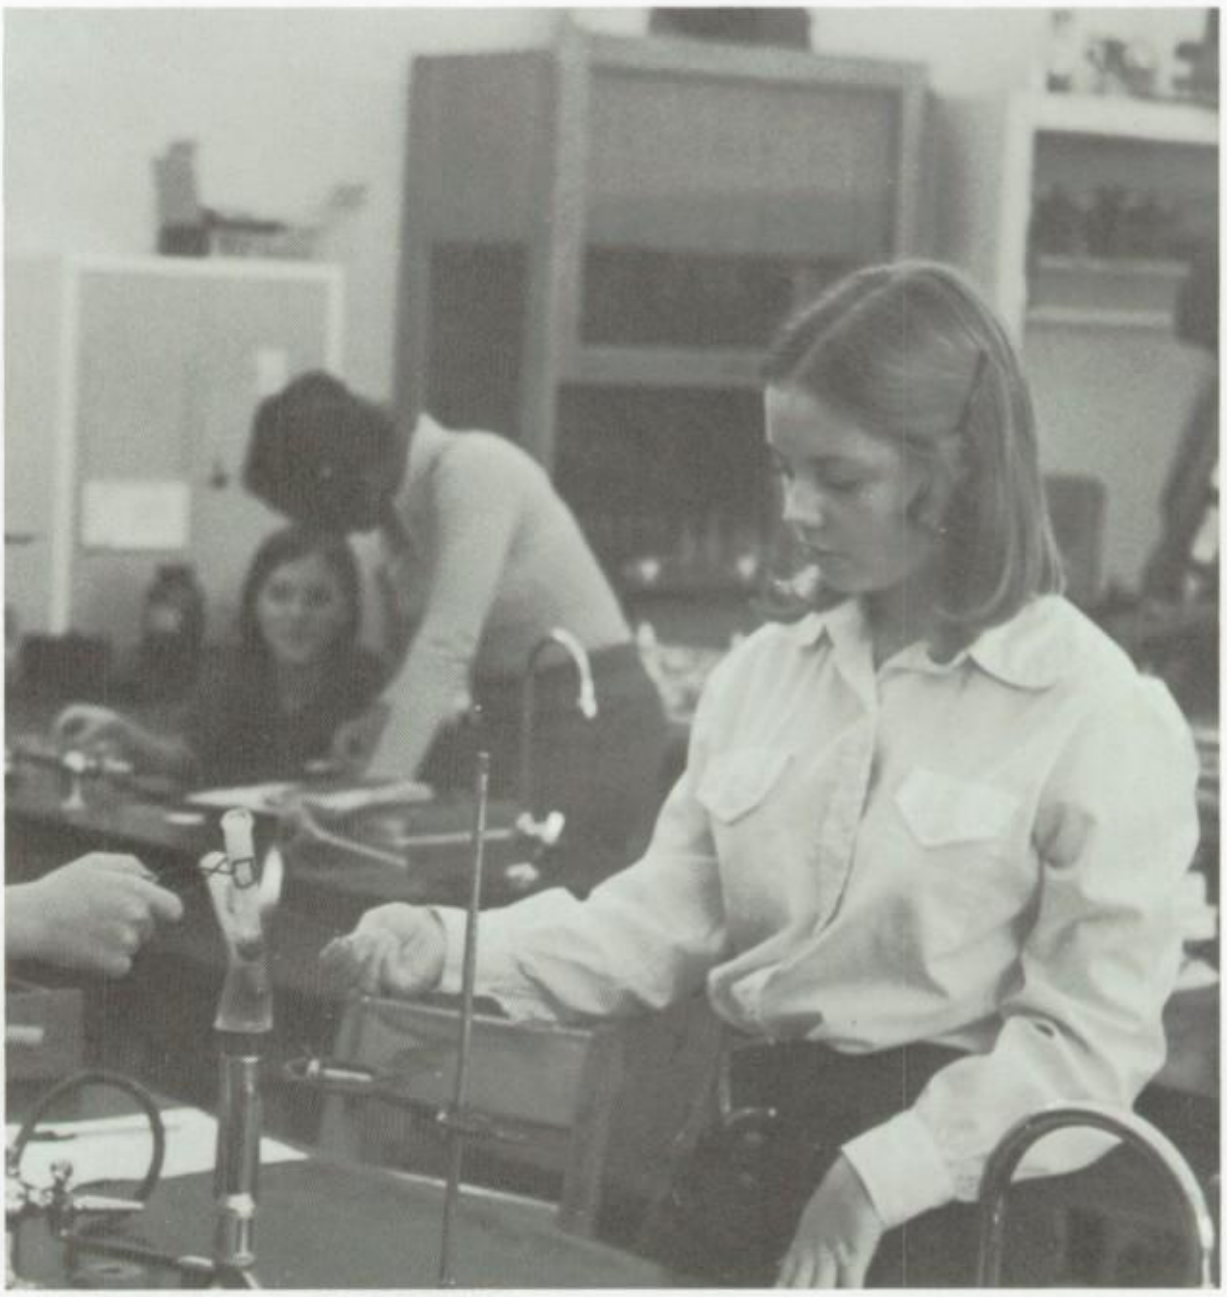
OPPOSITE PAGE: 1.) Mrs. West believes that understanding the students is as important as teaching them.
2.) Jim Kerley examines his slide carefully while others hide from them.

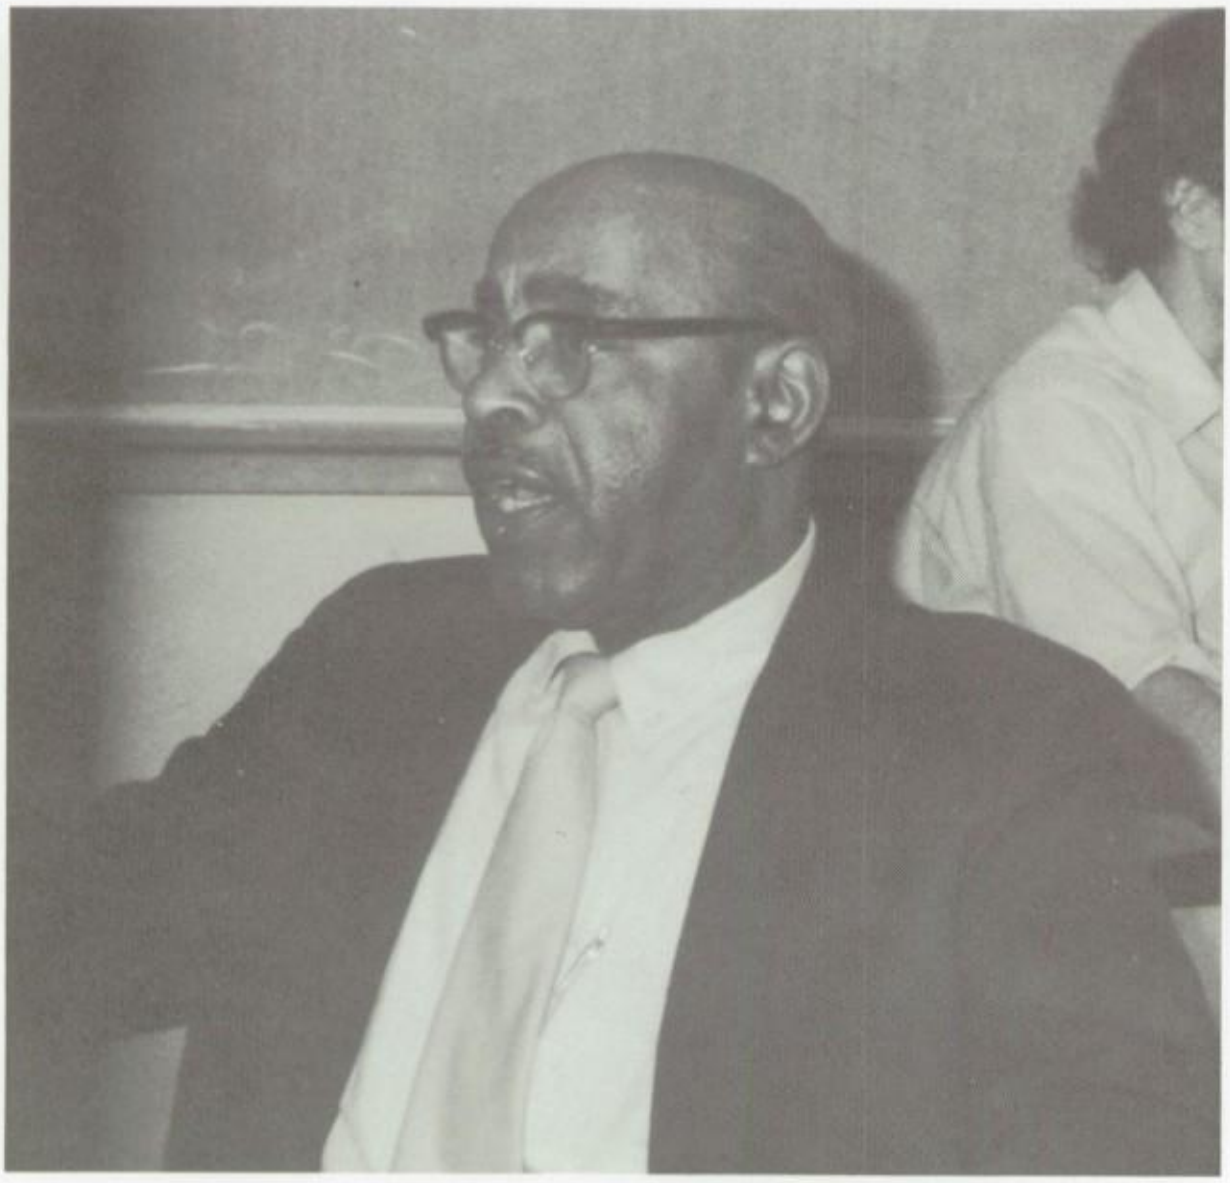
A Search for Everlasting Truth is Science

Science is defined as a search for truth. Here at WCHS the truth is being analyzed by many interested students with the aid of three new teachers: Mrs. Goad, Mr. Byrd, and Mr. Travis. Techniques such as IIS and IPS are used to get the student to use scientific methods and thoughts in our everyday life, for example, "Look Ma, Where's Pa?" to represent a sexual reproduction. The Science Fair and the Atomic World Program are aiding the awareness of students.

IIS and IPS Techniques Used to Experiment Everyday Life



1.) "Which is hotter . . . the flame of love or the flame of a burner?" wonders Jane Medcalf.
2.) Mr. John Byrd, a new addition to the science department, enjoys watching a student make use of her time.
3.) Mrs. Graham knows that proper lighting is a necessity for the proper use of a microscope.



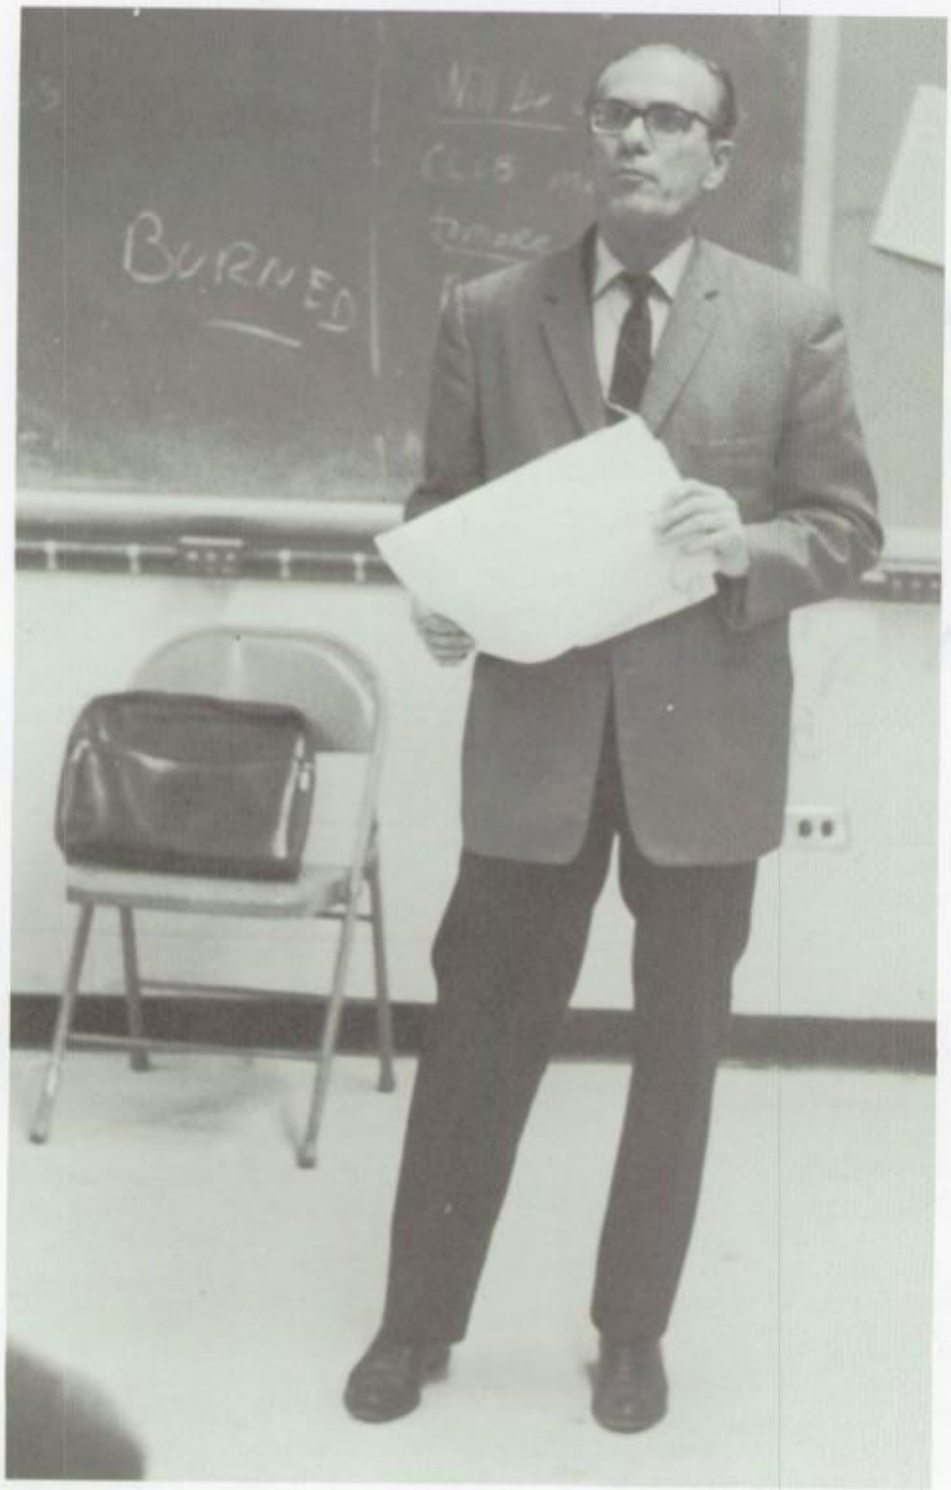
Future Planning For Themselves

Added to the curriculum this year is a program of Special Education. Mr. Joseph Barber and Mr. Paul Trudeau are working to make learning easier so that these students may better develop and prepare themselves for their future lives.

1.) Mr. Barber is glad that in his class he is able to give each student the attention he needs.
2.) Mr. Trudeau extends to each student his undivided attention.

Foreign Language Prepares Students for College

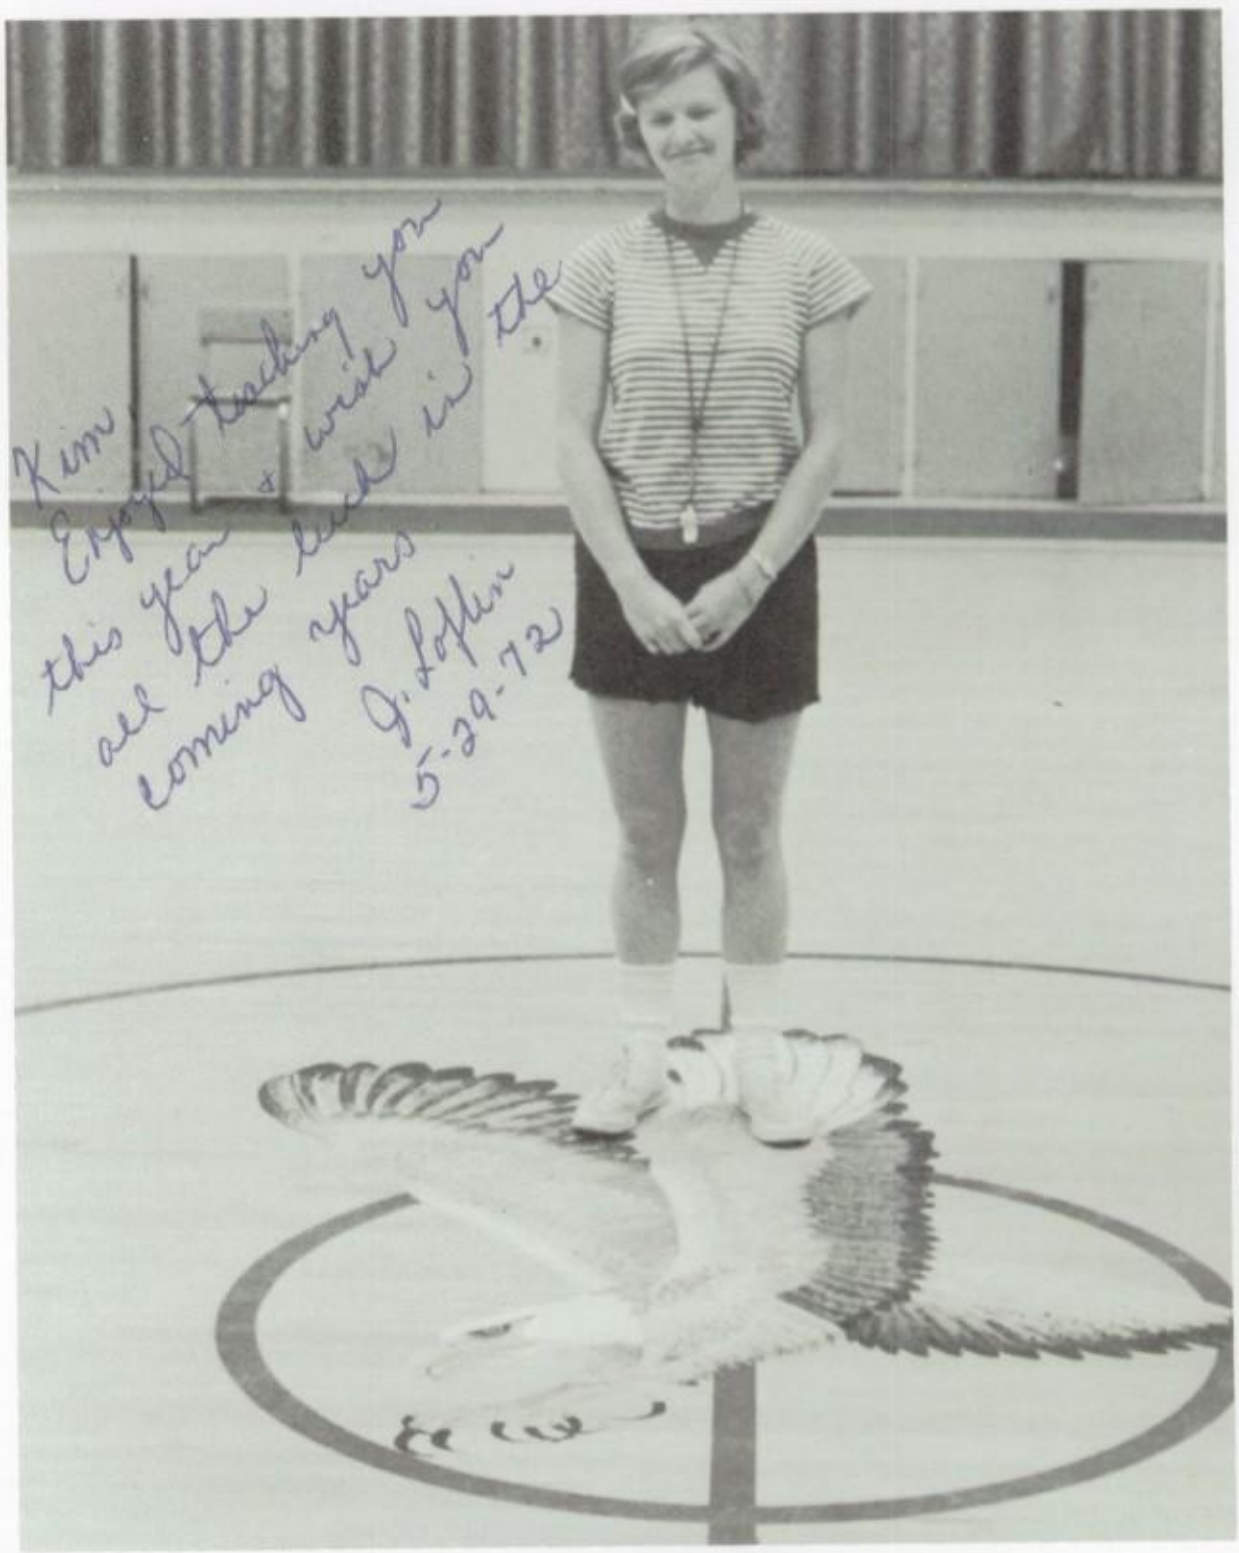
Under the college preparatory program, a student is required to take two units of either Latin, French, or Spanish. Most students become so interested in the language, really the teacher, that they take three or four units. Learning the customs and traditions of the people who speak each language and learning how to speak, read, and write the language are the major parts of each course.

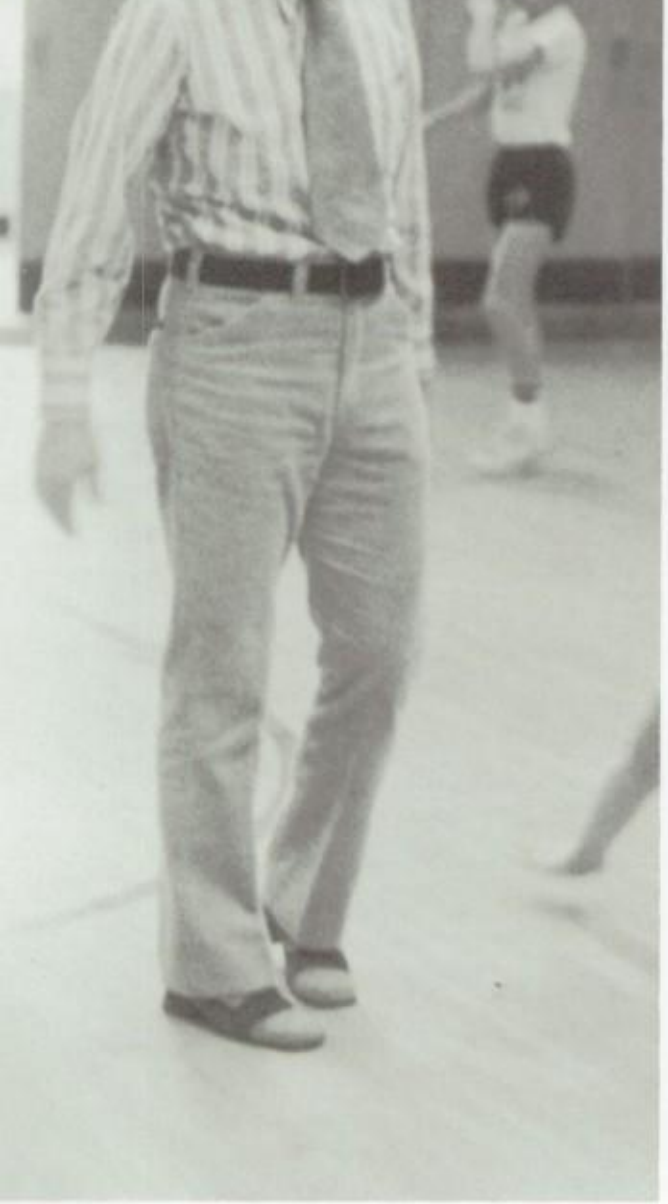


1.) Mrs. Canter tries to treat each student as an individual.
2.) Mr. Farias wonders if this class will be as hectic as last period.
OPPOSITE PAGE: 1.) How does it feel to be on the other side of Latin IV, Mr. Greene?
2.) Mrs. Cranford makes her famous statement, "We will now begin . . . Ready?"

Physical Education, a Requirement for Freshmen Students

Physical Education is work shared by the whole team keeping those muscles pretty and keeping their bodies fit. Doing skills which require timing, thought, and coordination, the Freshmen are getting themselves ready to cope with the "tamed big" people of WCHS. As each student passes up his Freshman year, he wonders seriously if physical education is his number one favorite subject!





1.) One of the chores of the boys P.E. class is setting up chairs for assemblies.
2.) Everyone, including the boys, wishes that Coach Webster was girls P.E. instructor.
OPPOSITE PAGE: 1.) Freshmen girls take a "break" during the long day for a game of football.

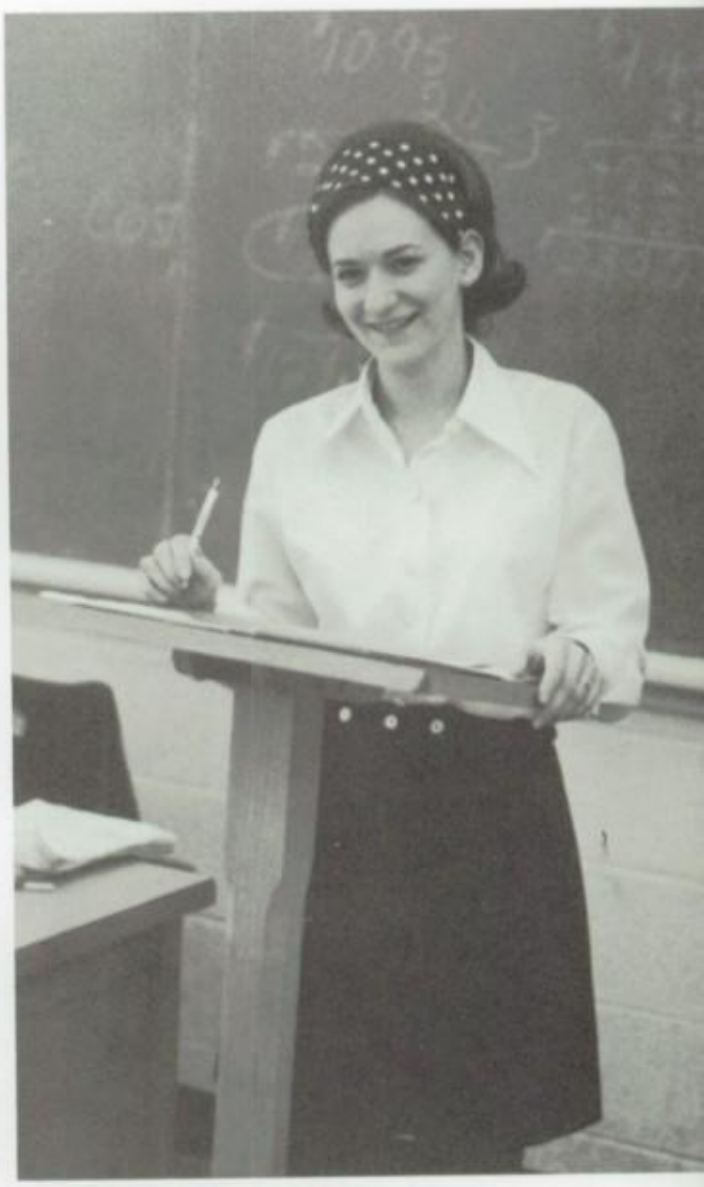
Highlighters Become a New Addition to School Curriculum

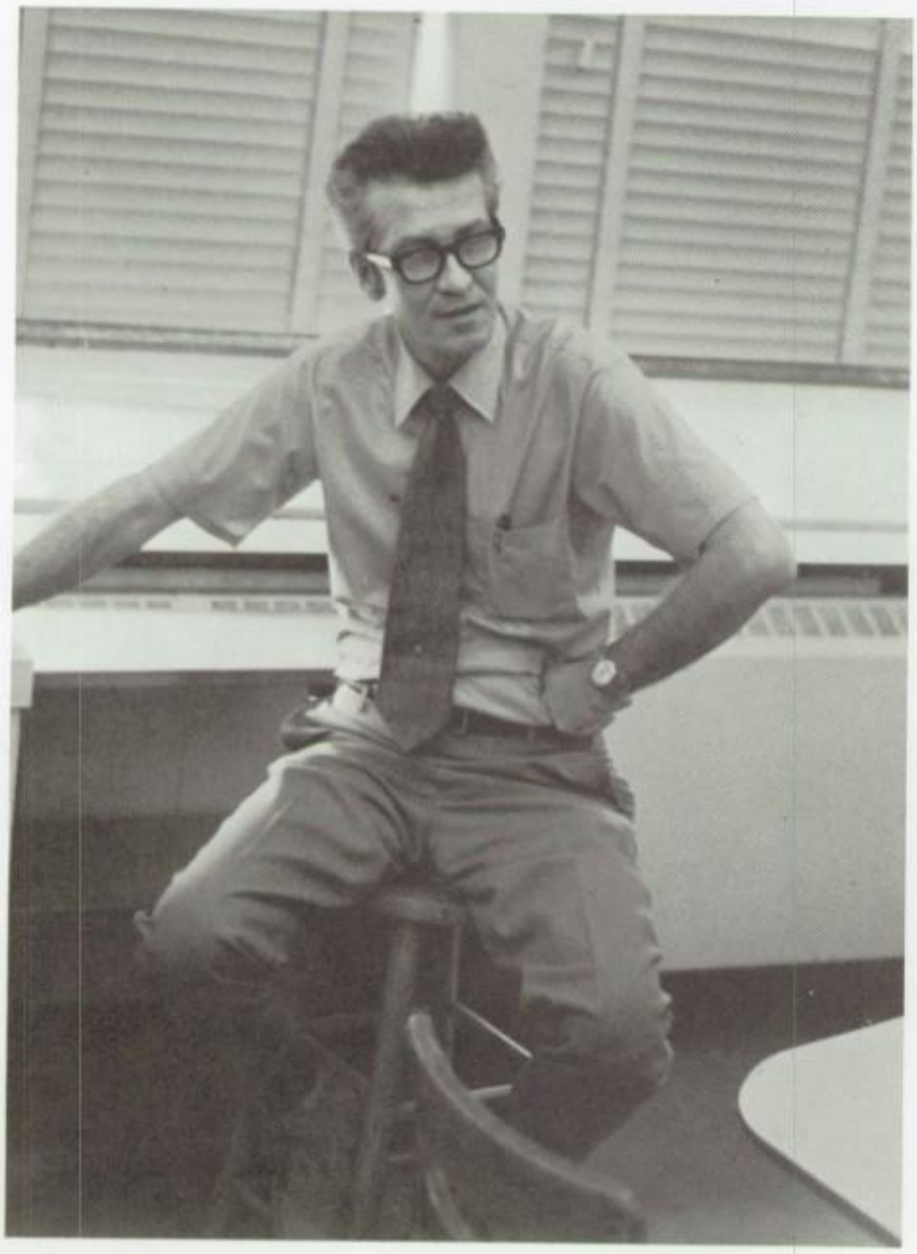
As a part of the Fine Arts department at WCHS, the chorus, band, and art classes strive to further the appreciation of culture among the high school students. To give students an opportunity to display their talent and training, many concerts and exhibits are given throughout the year. The music students participate in music clinics, art students are encouraged to enter Scholastic Awards and local contests. The band is full of vigor, determination and spirit which explains their value of popularity and cooperation under the WCHS system.



1.) Mrs. Jarvis finds typing just as much fun as shorthand.
2.) Mrs. Colvard is surprised at how much her freshmen students know about the world of business.
3.) Mrs. Shaw wonders if Tony Stone is typing or flying.
OPPOSITE PAGE: 1.) Doing his student teaching for Mrs. Jarvis, Mr. Weaver gets a taste of the real thing.
2.) Mr. Furr asks "What DID you say?"
3.) Ready, eyes on copy, begin . . .

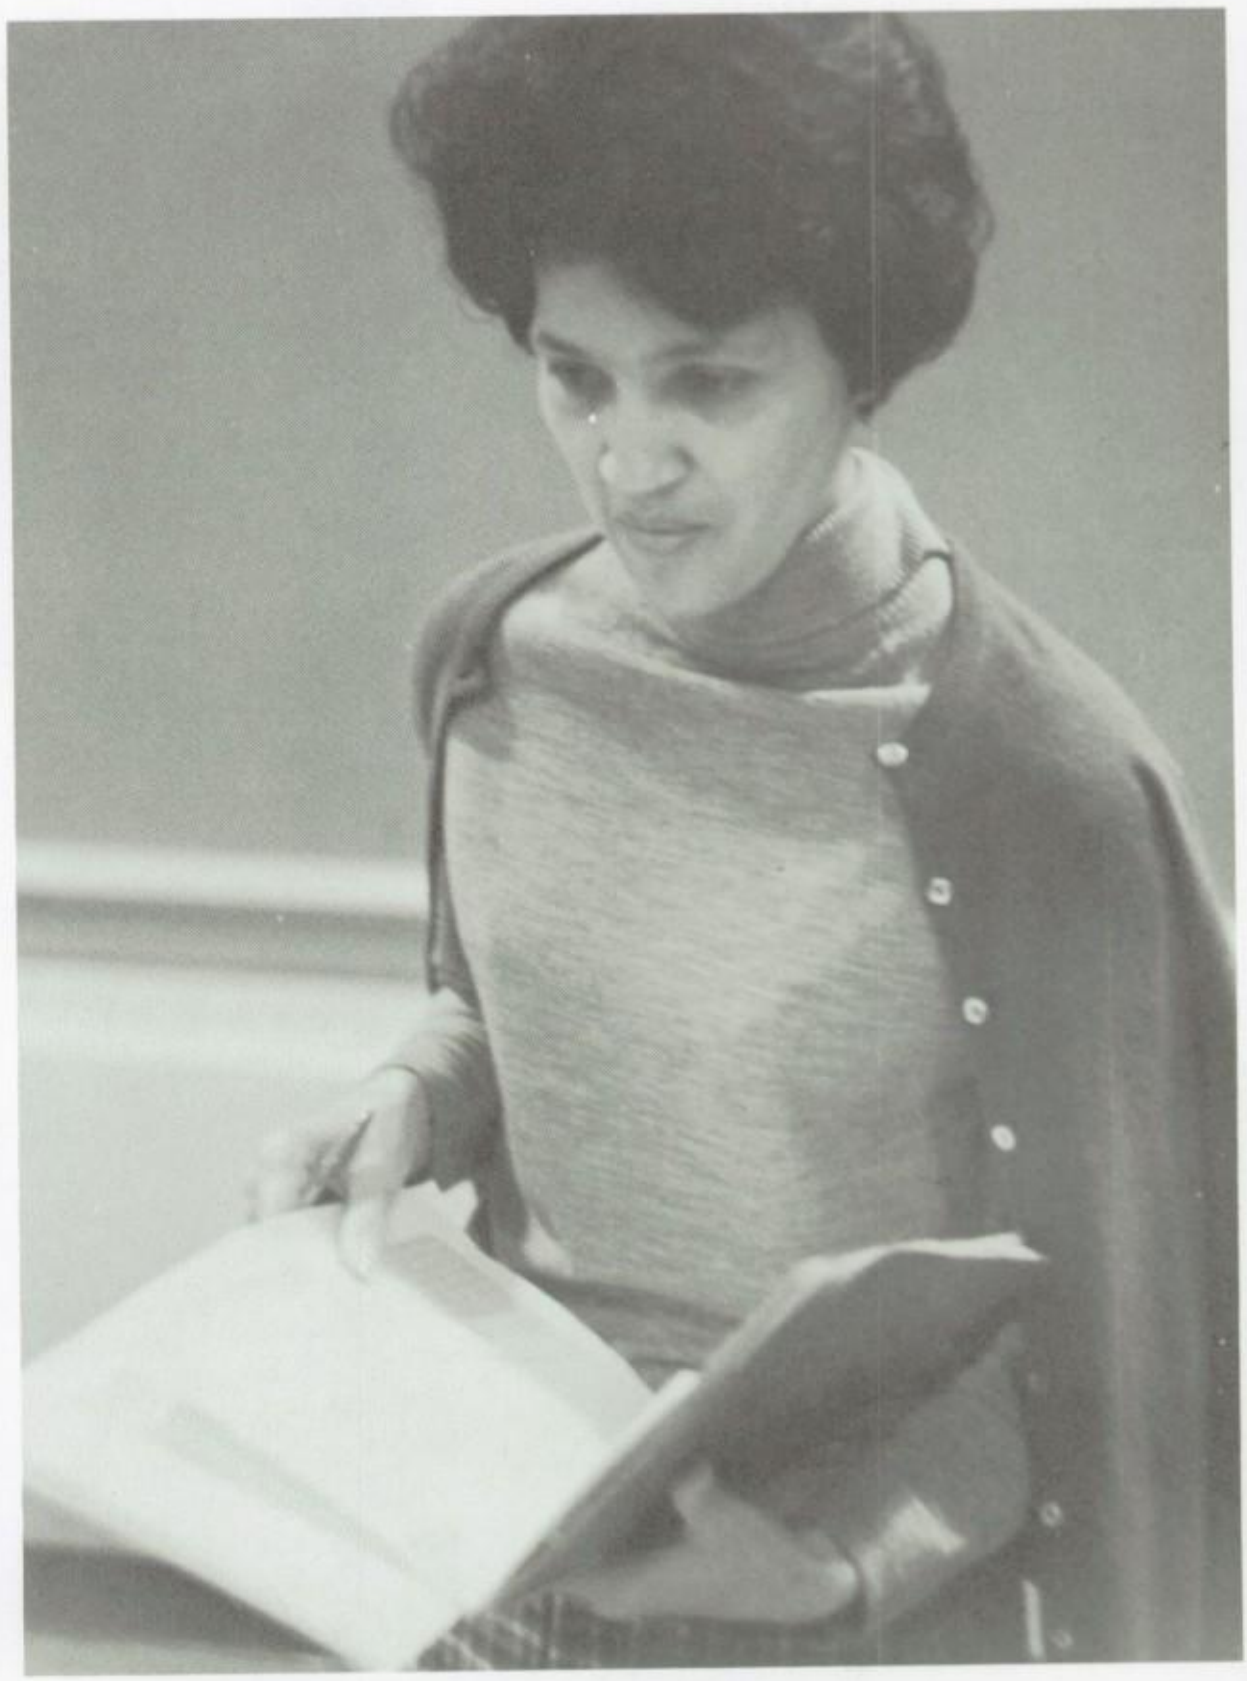
Business Occupational Education is a New Course Offered to Business Students

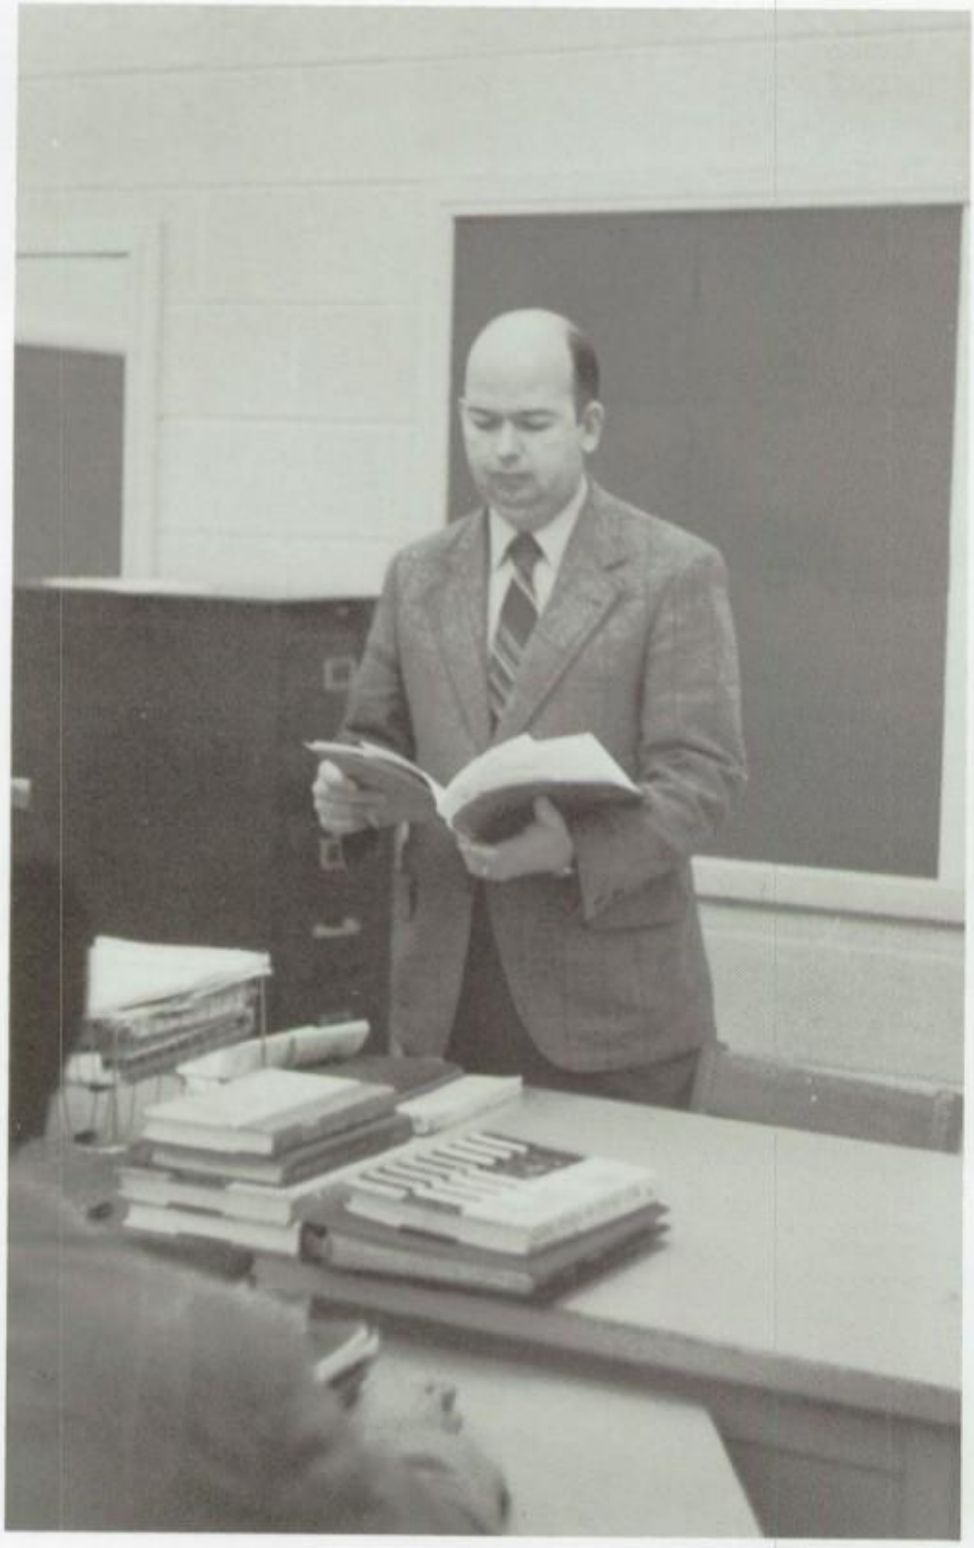
Concerned with competency, the business department places emphasis on the student's ability to function effectively in the secretarial or bookkeeping fields. The addition of new courses such as Business Occupational Education is beneficial in preparing students for the business world and its many problems. This would not be complete if it were not for two new teachers on the staff: Mr. Gary Byrd and Mrs. Brenda C. Colvard.

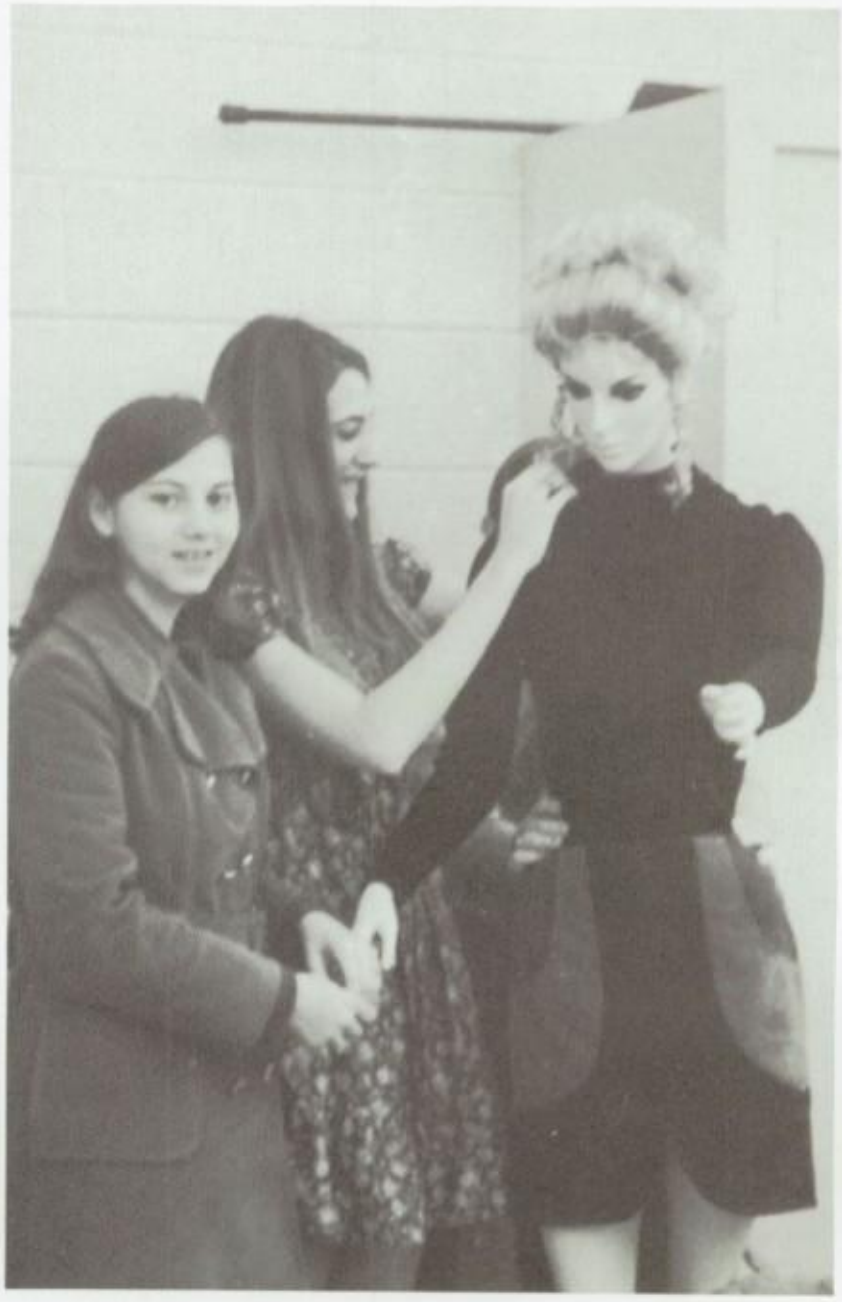


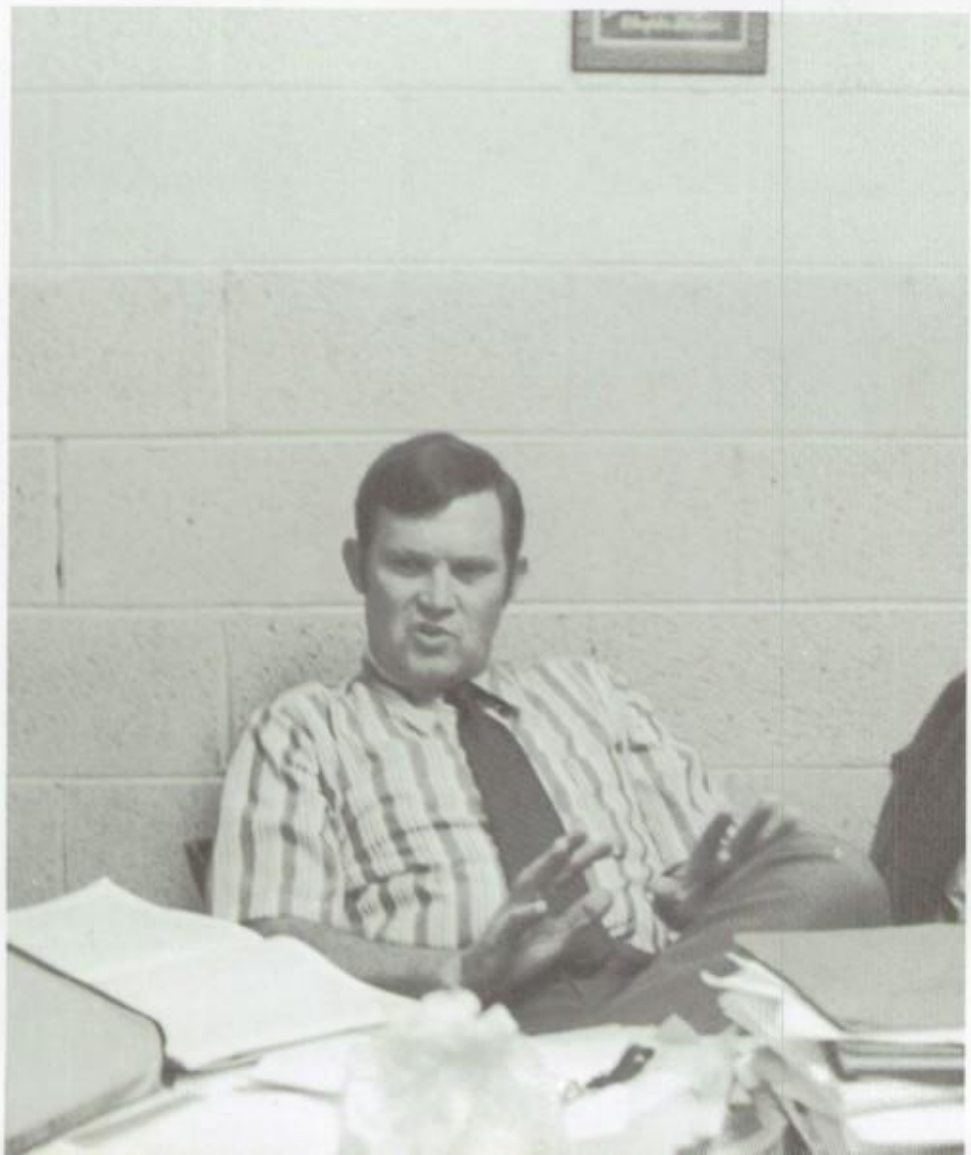
Practical Arts Prepare the Student for a Working and Growing Society

The basis of understanding a vocational career is to study the art of the field. Many fields of interest are introduced to students in this all round curriculum — Practical Arts. The arts of sewing, cooking, farming, mechanical drawing, family living, driving, and industrial arts are what make up the system of Practical Arts. The title, "Practical Arts," means exactly what it says. It's the practical arts that interest the students each year. Those who do not plan to attend college find enjoyment in preparing themselves for a working and growing society. Above all, students seem to advance their capabilities to do things for the school and for themselves, too.









1.) Mr. Jack Nixon helps prepare the students for the business world in Distributive Education.
2.) Amy O'Farrell, president of the Distributive Education Club, and Nancy Wilcox help dress a fellow dummy of the class.

Industrial Arts, Agriculture, and Drivers Education Effect Us All

2.) Mr. Mathis and Ricky Hendrix wonder if they will be able to fix the bike in time to go home.
3.) Mr. Mathis checks over progress reports made by his students.
OPPOSITE PAGE: 1.) Coach Groce manages to survive another driving session.
2.) Coach Branch enjoys looking at pictures of . . . , after a day of student driving.

you've a really
girl and a good

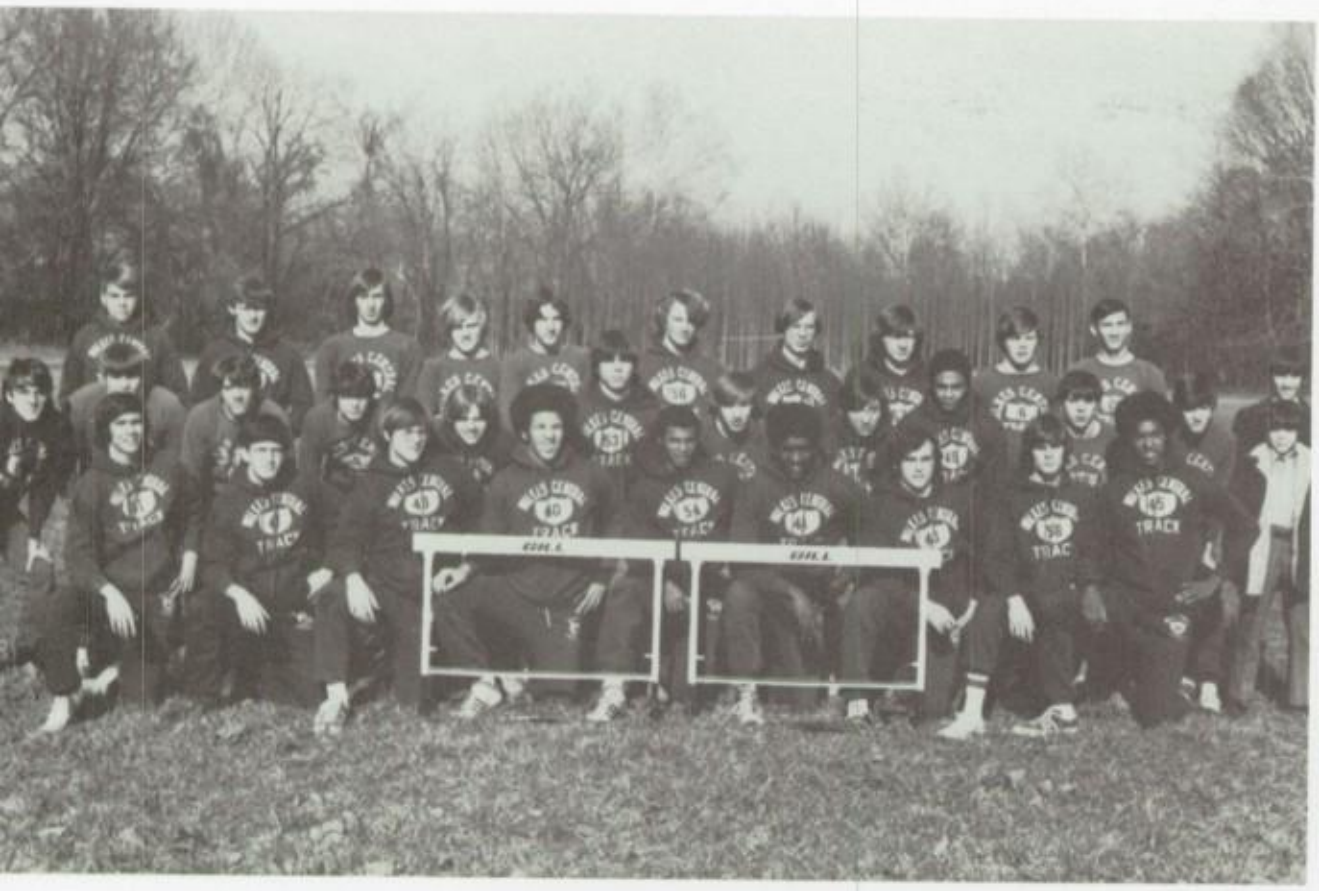
ATHLETICS: (ath let' iks) n. Sports, games that require bodily exertion; extracurricular activities in competition with other schools. Athletics are made up of football, basketball, wrestling, golf, tennis, track, and baseball. Athletics are Wilkes Central students competing with other students for enjoyment and recognization that WCHS is the best.

Golf - a Test of Concentration and Skill

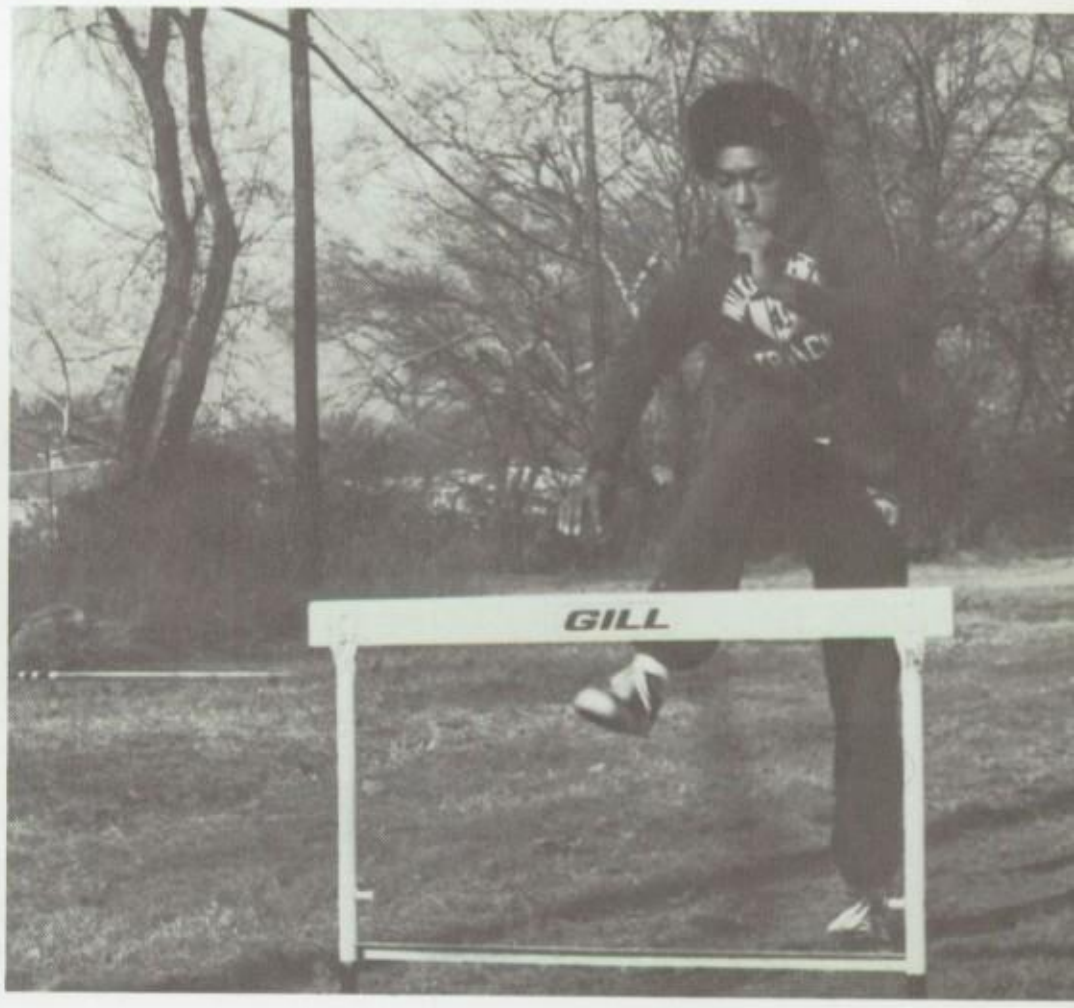
GOLF is a game that requires, from each participant, concentration and involvement. A golfer maintains confidence in himself that he, someday, might hit a hole in one. Golf involves coping with nature and its problems, especially when the "going gets rough." Each golfer tries to learn the right leverage, the right grip, the right stance, and the right way to be an outstanding golfer.

1.) After long hours of practice, players like Mike Hoggard and Mike McNeil learn one way to make putting easier.
2.) The 1972 Golfers are: Mike Hoggard, Mike McNeil, Kenny Smith, David Bentley, David Brown, Eric Sloop, Bill Rhodes.



Anticipation is Great For Spring Season

As spring arrives at WCHS, TRACK also arrives awaiting some young man who is ready to begin making his muscles and body powerful and fit again. Many enthusiastic young men spend most of their time running several miles each day; jumping hurdles, vaulting, throwing, and participating in a vigorous training program which leads to the word every track member loves — VICTORY!



1.) The 1971-72 Track members are (left to right): FIRST ROW: Nick Hobbs, Larry Bennett, Tim Bundy, Mike Harris, Zaphon Wilson, Lynn Hill, Wayne Pardue, Robert Armstrong, and Raymond Stokes. SECOND ROW: Phillip Hennessee, David Sink, Lewis Absher, David McNeil, Jack Fulk, Sonny Church, Willy Triplett, Terry Hayes, Quincy Roberts, Brent Rockett, Chuck Smithey, and Doug Rockett. 3.) *Raymond Stokes reveals the deep concentration needed in order to run hurdles.*

. . . Sounds of Crackling Bats. . .

Beginning another spring, BASEBALL starts its course again. With several returning players and Coach Patrick, the baseball team is working harder to give WCHS a better team with more victories and maybe a championship, too. Baseball is a sport that lacks popularity, but if you see our Eagles play, you won't want to miss a game.

1.) Leading hitting prospects are (left to right): Mike Cooper, Perry Snipes, Dennis Love, and Jeff Osborne.
2.) Returning for 1972 are (front to back): Steve Gentry, Ronnie Crisp, Mike Cooper, Perry Snipes, Art Groce, Dennis Love, Jeff Osborne, and John Williams.

OPPOSITE PAGE: 1.) *Working together as battery mates are Art Groce and Perry Snipes.*

Eagles Post 6-4 Record

With a large sum of pride and achievement, the 1971-1972 VARSITY FOOTBALL team accomplished their goal — success. The football team had determination and worked hard which led to a 6-4 standing for the season. The players, in their struggle for victories, discover that football requires not only physical skill, but a sense of sportsmanship, too. Tony Hayes, with his speed, determination, and "killer instinct" was chosen as the Northwestern All-Conference Football Player for this year. WCHS' coaching staff, HEAD: Coach Hoffman, OFFENSIVE: Coach Groce, and DEFENSIVE: Coach Patrick, supply the knowledge to the players which enables them to strike at their opponents' weaknesses and to correct their own. Each player tremendously sacrifices his time, and most of all he is very dedicated to the sport in which he admires — football.

Junior Varsity Learn By Mistakes

Beginning as one, but later too together is the way each JV FOOTBALL player starts his career at WCHS. As each player practices his ability to be fair and, yet, play tough, he is proving to himself and the school that he is "in" and ready to become a great football player in the years to come. Football requires skill, and even though at times it may seem impossible to complete their task, the J V's are striving to reach their capabilities of playing their game — football!

Good Season Proves Endurance

As each WRESTLER is on the mat using every technique and hold he can to pin his man, he uses quickness and a strong sense of balance which often is the determining factor of victory. Each wrestler learns to apply his basis of wrestling and still enjoy his sport. Working hard and together, out-maneuvering his opponent, and enduring defeats as well as enjoying victories are the beginnings of a great wrestler.

Eagles Finish First Place in Conference

The WCHS BOYS VARSITY BASKETBALL team for the first time in the history of the school won a basketball co-championship when the team defeated Morganton in a "cliff-hanger" 36-33. The team with no starters from last year worked to produce winning streaks which made an amazing season.

Three of the Eagles, Steve Whittington, Randy Simpson, and Wayne Burkenbine, were selected to the All-Conference team. Also, the Eagles' coach, David Webster, was chosen as the Coach of the Year. WCHS was, is, and shall be very proud of this fine hard working, determined, spirited, and eager sportsmen who have the "know-how" in basketball.

CLASSES: (klas' is) n. Numbers of people grouped together because of interests, age; likenesses, or sort. Classes are made up of four groups: freshmen, sophomores, juniors, and seniors. Classes are students, divided and grouped according to age and academic advancement. Classes are made up of students and students make WCHS possible.

Wilkes Central Has Largest Freshmen Class in History

As the school year of WCHS begins, 400 to 500 confused Freshmen are running around in an all new world of wonderment. Each student, as a beginner, has great hopes for himself in the future, scholastically, as well as in school and social activities. Finding out things they did not expect, seems to place the Freshman on a spinning wheel that keeps on spinning and never stops. With the responsibilities that each Freshman possesses, they realize they are growing up and growing up is not one little bit easy. "Some times school is fun and others, well . . ."

Stepping Up Into the Atmosphere of Upperclassmen

The Sophomores are back; to make a better appearance than they did before. Now that they are here, what do they find? They find themselves really caring about important matters of life, such as sports, dating, drivers license, keeping those grades up, and lots of extra-curricular activities to occupy their leisure time. As the Sophomores get ready to step up into the atmosphere of upperclassmen, they are filling positions in the varsity and junior varsity sports, student government, places in classrooms and clubs. Until then, the Sophomores find enjoyment in just being themselves, SOPHOMORES!

Sophomore class officers are: Marty Province, president; Clegg Scroggs, vice-president; Julie Hettiger, secretary; Carol Rhodes, treasurer.

We Become Upperclassmen and We Get Classrings

Within each Junior is the idea, "all work and no play" makes Juniors dull people. Participating in organized sports, clubs, Student Council, College Day, and helping plan the Junior-Senior are the things that center around a Junior's life at WCHS. Finally, the Juniors get around to sitting in the chairs which give a much more relaxed surrounding. Having good-natured fun is completing the Junior class with the help of class officers: Monty Minton, president; Nick Hobbs, vice-president; Susanne Hayes, secretary; and Edwin Church, treasurer.

Senior Year is a Time to Remember

The Seniors child-like innocence is gone; they are reaching for new horizons. Their ignorance is replaced with knowledge and searching for the lasting truths. The Seniors have the choice of working or continuing their education in a chosen field of interest. Through all the classes and activities a Senior takes part in during his high school career, he learns to accept responsibilities of growing up. Already accepting responsibilities are: Lloyd Parsons, President; Bonita Robbins, Vice-President; Beth Bond, Secretary; Floyd Parsons, Treasurer.

Lloyd Parsons takes time out from his duties as Senior class president to tell a joke.
